Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of Oklahoma State University, as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise Oklahoma State University's basic financial statements as listed in the table of contents.

In our opinion, based on our audits and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of Oklahoma State University, as of June 30, 2023 and 2022, and the changes in financial position, and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Oklahoma State University Foundation (OSU Foundation), which represent 90 percent and 89 percent of assets, 89 percent and 89 percent of net assets, and 99 percent and 99 percent of revenues, of the aggregate discretely presented component units as of June 30, 2023 and 2022, respectively. The statements were audited by other auditors whose report have been furnished to us, and our opinion on the financial statements, insofar as it relates to the amounts included for OSU Foundation is based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Oklahoma State University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of OSU Foundation were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matter

As disclosed in Note 1, the University implemented the provisions of Governmental Accounting Standards Board Statement No. 96 – *Subscription-Based Information Technology Arrangements*. The Standard establishes that a subscription-based information technology arrangement results in a right-to-use subscription asset and a corresponding subscription liability. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma State University's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Oklahoma State University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma State University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedules of University's Proportionate Share of the Net Position Liability and Contributions, and Schedule of Changes in Total OPEB Liability and Related Ratios be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Oklahoma State University's basic financial statements. The Revenue Bond Systems Outstanding – Schedule of Revenues, Expenditures, Changes in Fund Balance and Combining Schedules by Campus, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS by us and other auditors. In our opinion, the Revenue Bond Systems Outstanding – Schedule of Revenues, Expenditures, Changes in Fund Balance and Combining Schedules by Campus are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2023, on our consideration of Oklahoma State University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Oklahoma State University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Oklahoma State University's internal control over financial reporting and compliance.

Oklahoma State University Management's Discussion and Analysis Years Ended June 30, 2023 and 2022

Overview of Financial Statements and Financial Analysis

Oklahoma State University proudly presents its financial statements for fiscal years 2023 and 2022, with comparative data presented for fiscal year 2021. In 2023, the University adopted GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, which establishes that a subscription-based information technology arrangement results in a right-to-use subscription asset and a corresponding subscription liability. Information for the year ended June 30, 2021, was not restated for the application of GASB Statement No. 96 as it was deemed impractical to do so. The emphasis of discussions concerning these statements will be for the current year. There are three financial statements presented: the Statements of Net Position; the Statements of Revenues, Expenses, and Changes in Net Position; and the Statements of Cash Flows. All dollar amounts in this discussion are presented in thousands of dollars. This discussion and analysis of the University's financial statements provides an overview of its financial activities for the year.

Statements of Net Position

The Statements of Net Position present the assets (current and noncurrent), deferred outflows of resources, liabilities (current and noncurrent), deferred inflows of resources, and net position (assets plus deferred outflows minus liabilities minus deferred inflows) as of the end of the fiscal year. The purpose of the Statements of Net Position is to present to the readers of the financial statements a fiscal snapshot of Oklahoma State University. The difference between current and noncurrent assets is discussed in the footnotes to the financial statements.

From the data presented, readers of the Statements of Net Position are able to determine the assets available to continue the operations of the institution. They are also able to determine cost of unamortized debt, and determine how much the institution owes vendors, investors, and lending institutions.

Net position is divided into three major categories. The first category, net investment in capital assets, provides the institution's equity in property, plant, and equipment owned by the institution. The next category, restricted is divided into two categories, nonexpendable and expendable. The nonexpendable restricted resources are only available for investment purposes. Expendable restricted resources are available for expenditure by the institution, but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The final category is unrestricted. Unrestricted resources are available to the institution for any lawful purpose of the institution. The following chart is a summary of the Statements of Net Position over the last three fiscal years:

		2022	
	2023	(As Restated)	2021
		(In Thousands)	
Assets			
Current assets	\$ 492,688	\$ 472,937	\$ 439,799
Capital assets, net of accumulated depreciation	2,117,263	2,084,589	2,048,489
Other assets	182,282	187,898	162,930
Total assets	2,792,233	2,745,424	2,651,218
Deferred Outflows of Resources	111,934	99,315	182,420
Total Assets and Deferred			
Outflows of Resources	2,904,167	2,844,739	2,833,638
Liabilities			
Current liabilities	187,602	179,333	157,393
Noncurrent liabilities	1,294,633	1,205,757	1,426,598
Total liabilities	1,482,235	1,385,090	1,583,991
Deferred Inflows of Resources	97,695	214,660	97,696
Net Position			
Net investment in capital assets	1,196,455	1,176,121	1,181,187
Restricted - expendable	127,361	112,354	78,736
Restricted - unexpendable	681	799	746
Unrestricted	(260)) (44,285)	(108,718)
Total Net Position	\$ 1,324,237	\$ 1,244,989	\$ 1,151,951

In fiscal year 2023, total assets of the institution increased by \$46,809 or 1.70 percent over fiscal year 2022. A review of the Statements of Net Position will reveal that there are many offsetting variances, but the increase was primarily due to increases in accounts receivable of \$58,163, and capital assets, net of accumulated depreciation of \$32,674. These were offset by decreases in cash and cash equivalents of \$34,426 and receivables from state agencies of \$5,188.

In fiscal year 2022, total assets of the institution increased by \$94,206 or 3.55 percent over fiscal year 2021. A review of the Statements of Net Position will reveal that there are many offsetting variances, but the increase was primarily due to increases in cash and cash equivalents of \$85,126, capital assets, net of accumulated depreciation of \$36,100 and other postemployment benefits of \$5,137. These were offset by decreases in receivables from state agencies of \$16,066 and investments of \$8,089.

In fiscal year 2023, capital assets, net of accumulated depreciation increased \$32,674 or 1.57 percent. This was due primarily to construction in progress additions for the DASNR New Frontiers building.

In fiscal year 2022, capital assets, net of accumulated depreciation increased \$36,100 or 1.76 percent. This was due primarily to capital grants and gifts of improvements at Boone Pickens Stadium and Gallagher-Iba Arena and the entries for subscription assets due to GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*.

In fiscal year 2023, deferred outflows of resources increased by \$12,619 from fiscal year 2022. This was due primarily to an increase in deferred costs on pension programs of \$15,219. In fiscal year 2022, deferred outflows of resources decreased by \$83,105 from fiscal year 2021. This was due primarily to a decrease in deferred costs on pension programs of \$78,936.

In fiscal year 2023, total liabilities for the year increased by \$97,145 or 7.01 percent over fiscal year 2022. The increase was primarily due to an increase in the pension liability of \$106,092, offset by a decrease in accounts payable of \$9,306. There was also a decrease in revenue bonds and lease obligations of \$5,889.

In fiscal year 2022, total liabilities for the year decreased by \$198,901 or 12.56 percent over fiscal year 2021. The decrease was primarily due to a decrease in the pension liability of \$222,610. This was offset by an increase in revenue bonds and lease obligations of \$24,709, which is due to the entries for subscription liabilities due to GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*.

In fiscal year 2023, deferred inflows of resources decreased by \$116,965 over fiscal year 2022. This was due to a decrease in deferred inflows for pension liabilities of \$117,085. In fiscal year 2022, deferred inflows of resources increased by \$116,964 over fiscal year 2021. This was due to an increase in deferred inflows for pension liabilities of \$112,540.

In fiscal year 2023, net position increased \$79,248 while in fiscal year 2022, net position increased \$93,038.

Bonds and Capital Lease Obligations

In fiscal year 2023, bonds were issued in the amount of \$40,498 which included a premium of \$3,873. These bond proceeds were used to refund certain outstanding bonds, make capital improvements, and pay the purchase price under certain capital lease obligations.

In fiscal year 2022, bonds were issued in the amount of \$25,244 which included a premium of \$2,789. These bond proceeds were used to refund certain outstanding bonds, make capital improvements, and pay the purchase price under certain capital lease obligations.

Statements of Revenues, Expenses, and Changes in Net Position

While the fiscal years 2022 and 2023 comparisons are important indicators of activity during the year under audit, it is important to look at some of the operating and nonoperating categories over time. One of the important measures of an institution's fiscal stability is how operating revenues compare to operating expenses. Public institutions will normally not have an excess of operating revenues over operating expenses because state appropriations and federal and some state student grants are considered nonoperating revenues under generally accepted accounting principles in the United States of America.

The following table summarizes the revenues, expenses, and changes in net position for Oklahoma State University over the last three years:

	2023	2022 (As Restated)	2021
		(In Thousands)	
Operating revenues	\$ 1,024,	824 \$ 938,726	\$ 863,029
Operating expenses	1,306,	446 1,216,530	1,194,683
Operating loss	(281,	622) (277,804)	(331,654)
Nonoperating net revenues	309,	130 310,912	288,107
Income (loss) before other revenues, expenses, gains, and losses	27,	508 33,108	(43,547)
Other revenues, expenses, gains, and losses	51,	740 59,930	95,551
Net increase in net position	\$ 79,	248 \$ 93,038	\$ 52,004

Operating revenues of \$1,024,824 in fiscal year 2023 reflect an increase of \$86,098 or 9.17 percent when compared to fiscal year 2022. The increase came primarily from an increase in auxiliary enterprise charges of \$54,796 and tuition and fees, net of \$15,070.

Operating revenues of \$938,726 in fiscal year 2022 reflect an increase of \$75,697 or 8.77 percent when compared to fiscal year 2021. The increase came primarily from an increase in auxiliary enterprise charges of \$62,520 and grants and contracts of \$31,406 offset by a decrease in other operating revenues of \$31,291.

The following table summarizes the operating revenues of Oklahoma State University for the last three years:

			2022	
	2023	(As	Restated)	2021
		(In T	housands)	
Tuition and fees, net of scholarship allowances	\$ 329,558	\$	314,488	\$ 306,369
Grants and contracts and federal				
appropriations	189,916		185,348	153,772
Sales and services of educational departments	87,295		74,648	69,835
Auxiliary enterprises charges	402,716		347,920	285,400
Interest earned on loans to students	178		210	250
Other operating revenues	 15,161		16,112	 47,403
Total Operating Revenues	\$ 1,024,824	\$	938,726	\$ 863,029

Operating expenses of \$1,306,446 in fiscal year 2023 reflect an increase of \$89,916 or 7.39 percent when compared to fiscal year 2022. The increase was primarily due to the increase in compensation and employee benefits of \$68,744 and contractual services of \$34,731, offset by a decrease in scholarship and fellowships of \$17,019.

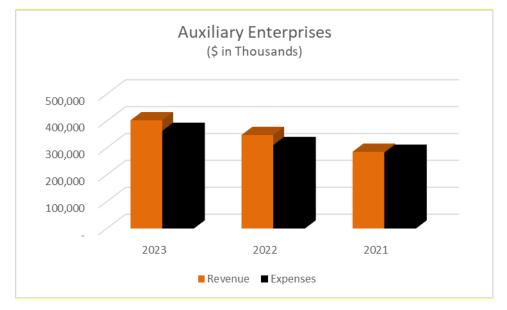

Operating expenses of \$1,216,530 in fiscal year 2022 reflect an increase of \$21,847 or 1.83 percent when compared to fiscal year 2021. The increase was primarily due to the increase in other operating expenses of \$23,253, scholarships and fellowships of \$21,278, and contractual services of \$18,145, offset by a decrease in compensation and employee benefits of \$51,524.

			2022	
	202	3 (A	s Restated)	2021
		(In	Thousands)	
Compensation and employee benefits	\$ 70	01,042 \$	632,298	\$ 683,822
Contractual services	26	52,895	228,164	210,019
Supplies and materials	5	52,234	50,587	52,730
Utilities	4	2,156	36,890	35,191
Communication		5,686	5,246	4,962
Other operating expenses	e	68,665	75,432	52,179
Scholarships and fellowships	e	4,563	81,582	60,304
Depreciation and amortization expense	1(9,205	106,331	 95,476
Total Operating Expenses	\$ 1,30	6,446 \$	1,216,530	\$ 1,194,683

To alleviate the gap between operating revenues and operating expenses, tuition and fees, grants and contracts, and auxiliary enterprise revenues must increase in amounts greater than increases in operating expenses. Additionally, nonoperating revenues must increase. State appropriations and tuition and fees are essential components of the revenue projections of the University. State appropriations have increased 7.60 percent in that time period and tuition and fees revenues have increased 7.57 percent. It should be noted that scholarship discount and allowance increased by 5.59% during that same time period.

Auxiliary Enterprises (Residential Life, Student Union, Bookstore, Health, Physical Education and Recreation, Athletics, University Health Services, Fire Protection Publications, etc.) have contributed positively to the Operating Revenues over time. Since fiscal year 2021, auxiliaries have experienced a revenue increase of \$117,316 or 41.11 percent and expenses have increased \$81,250 or 28.83 percent. For fiscal year 2023, auxiliaries have shown a net operating income of \$39,597.

Nonoperating net revenues of \$309,130 in fiscal year 2023 decreased \$1,782 or 0.57 percent when compared to fiscal year 2022. Nonoperating net revenues of \$310,912 in fiscal year 2022 increased \$22,805 or 7.92 percent when compared to fiscal year 2021. The following table summarizes the nonoperating revenues and expenses for Oklahoma State University for the last three years:

	-	2023	2022 <i>Restated)</i> housands)	2021
State appropriations	\$	206,004	\$ 198,166	\$ 191,446
On-behalf payments for OTRS		16,910	12,076	15,937
Federal and state grants and contracts		55,517	108,664	82,000
Gifts		63,572	32,303	31,326
Investment income (loss)		1,039	(6,432)	2,513
Interest expense		(33,912)	 (33,865)	 (35,115)
Net Nonoperating Revenues	\$	309,130	\$ 310,912	\$ 288,107

Other revenues, expenses, gains, and losses of \$51,740 in fiscal year 2023 decreased \$8,190 or 13.67 percent when compared to fiscal year 2022. Other revenues, expenses, gains, and losses of \$59,930 in fiscal year 2022 decreased \$35,621 or 37.28 percent when compared to fiscal year 2021.

	2023	(As	2022 Restated)	•	2021
		(In T	housands)		
Capital from grants, gifts, and affiliates	\$ 8,742	\$	11,851	\$	78,671
State appropriations restricted for capital	6,860		8,573		4,743
On-behalf payments for OCIA capital leases	6,521		4,227		4,228
State school land funds	8,437		7,826		7,662
Additions to permanent endowments	2		2		1
Loss on disposal of capital assets	(7,643)		(1,891)		(16,268)
Other additions, net	 28,821		29,342		16,514
Total Other Revenues, Expenses, Gains,					
and Losses	\$ 51,740	\$	59,930	\$	95,551

The following table summarizes the other revenues, expenses, gains, and losses of Oklahoma State University for the last three years:

Statements of Cash Flows

The final statement presented by Oklahoma State University is the Statement of Cash Flows. The Statements of Cash Flows present detailed information about the cash activity of the institution during the year. The statement is divided into five sections.

The first section deals with operating cash flows and shows the net cash used by the operating activities of the institution. The second section reflects cash flows from noncapital financing activities. This section reflects the cash received and spent for nonoperating, noninvesting, and noncapital financing purposes. The third section reflects the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The fourth section deals with cash flows from capital and related financing activities. This section deals with the cash used for the acquisition and construction of capital and related items. The fifth section reconciles the net cash used to the operating income or loss reflected on the Statement of Revenues, Expenses, and Changes in Net Position.

	2023	(25	2022 Restated)	2021
	 2023		housands)	2021
Cash provided by (used in)				
Operating activities	\$ (230,749)	\$	(185,951)	\$ (146,377)
Noncapital financing activities	316,004		339,179	308,819
Investing activities	1,616		1,614	1,256
Capital and related financing activities	 (121,297)		(69,716)	 (98,823)
Net change in cash and cash equivalents	(34,426)		85,126	64,875
Cash and cash equivalents, beginning of year	 413,506		328,380	 263,505
Cash and cash equivalents, end of year	\$ 379,080	\$	413,506	\$ 328,380

In fiscal year 2023, the cash and cash equivalents, end of year, decreased by \$34,426 or 8.33 percent. The difference in net change in cash and cash equivalents from fiscal year 2022 to fiscal year 2023 was a decrease of \$119,552. This net decrease was generated by decreases in capital and related financing activities of \$51,581, operating activities of \$44,798 and noncapital financing activities of \$23,175. This was offset by an increase in investing activities of \$2.

In fiscal year 2022, the cash and cash equivalents, end of year, increased by \$85,126 or 25.92 percent. The difference in net change in cash and cash equivalents from fiscal year 2021 to fiscal year 2022 was an increase of \$20,251. This net increase was generated by increases in noncapital financing activities of \$30,360, investing activities of \$358 and capital and related financing activities of \$29,107. This was offset by a decrease in operating activities of \$39,574.

Determining Whether Certain Organizations Are Component Units

The Governmental Accounting Standards Board (GASB) published GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units, which became effective in fiscal year 2004 and requires universities to include in their financial statements component unit financial information. Oklahoma State University has determined that the Oklahoma State University Foundation and the National Center for Addiction and Studies Treatment Foundation meet the necessary criteria for inclusion. The inclusion of these statements should not be interpreted that Oklahoma State University has access to the resources contained therein.

The financial statements include the accounts of the Oklahoma State University Research Foundation, Inc. (OSURF), collectively referred to as the "University." OSURF was formed in 1967 as a nonprofit corporation to engage in research, extension, and academic contractual arrangements for the benefit and advancement of the General University. OSURF receives and administers funds from federal and state organizations and from private sources for the purpose of carrying out the educational and research programs of the General University. OSURF is governed by a Board of Directors comprised primarily of management of the General University. In addition, General University employees and facilities are used for virtually all activities of OSURF. Accordingly, OSURF has been reported as a blended component unit in the financial statements.

Economic Outlook

The State of Oklahoma's overall budget increase for fiscal year 2024 was 10.8 percent. The Legislature increased budgets for most agencies and the total Education budget increased by 21.6 percent. The Oklahoma State Regents for Higher Education (OSRHE) received a 14.9 percent increase which was passed down to support the institutions that report to the OSRHE.

The priority emphases of the fiscal year 2024 allocation addresses elements outlined in the strategic plan *Blueprint 2030: Innovating and Elevating Oklahoma Higher Education for Tomorrow's Workforce* adopted by the State Regents in February 2023. These priorities include producing workforce ready graduates; stimulating growth in the student pipeline; focusing on student success; and improving system efficiency and effectiveness.

The critical workforce development initiatives funded through the fiscal year 2024 allocation will target STEM/Engineering, Nursing and Teacher Education. An additional \$80.0 million was given to institutions to support the Oklahoma Engineering Initiative. Funding was also given to each institution to address faculty compensation plans with a focus on implementation of the strategic plan. Finally, \$29.0 million was allocated through the State Regents' performance funding formula to provide funding for institutional priorities.

To address the critical shortage of teachers, the Oklahoma's Future Teacher Scholarship and Employment Incentive Program continues and was allocated another \$16.2 million in fiscal year 2024. The program provides scholarships for those majoring in teacher education at Oklahoma institutions as well as providing employment retention stipends for the first five years of a teaching employment contract in Oklahoma's public K-12 school system.

The University, with its strong leadership, continues to develop plans to reduce costs while protecting the educational experience of our students. No tuition or fee increases were assessed for the 2023-24 academic year.

"It's good to see most major revenue sources came in as expected during the first month of fiscal year 2024," said State Chief Operating Officer and OMES Executive Director John Suter. The shortfall in Gross Production Tax revenue is unsurprising as natural gas prices continue to remain at relatively low levels. Additionally, the dip in Total Income Tax reflects the anticipated economic slowdown in the second half of calendar year 2023. However, we expect the state's revenue to continue performing strongly overall.

Joseph B. Weaver, Jr. Senior Vice President for Administration and Finance

Notes to Financial Statements

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Oklahoma State University (the "University") is a modern comprehensive land grant university that serves the state, national, and international communities by providing its students with academic instruction, by conducting research and other activities that advance fundamental knowledge, and by disseminating knowledge to the people of Oklahoma and throughout the world.

Reporting Entity

The financial reporting entity, as defined by Governmental Accounting Standards Board (GASB), consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be misleading or incomplete. Accordingly, the financial statements include the accounts of all agencies of Oklahoma State University (the "General University"), as the primary government, and the accounts of the Oklahoma State University Research Foundation, Inc. (OSURF, formerly known as the Center for Innovation and Economic Development, Inc.), collectively referred to as the "University." Further, the financial statements of all other component units of the University meeting the criteria established by GASB Statements No. 39 and No. 80 have been discretely presented.

The General University includes Oklahoma State University – Stillwater; Oklahoma State University Institute of Technology – Okmulgee; Oklahoma State University – Oklahoma City; the Center for Veterinary Health Sciences; the Agricultural Experiment Station; the Agricultural Extension Division; the Center for Health Sciences – Tulsa; and Oklahoma State University – Tulsa. The General University is governed by the Board of Regents for the Oklahoma Agricultural and Mechanical Colleges (Board of Regents). The State of Oklahoma allocates and allots funds to each agency separately and requires that the funds be maintained accordingly. Because of this requirement, separate accounts are maintained for each agency.

OSURF was formed in 1967 as a nonprofit corporation to engage in research, extension, and academic contractual arrangements for the benefit and advancement of the General University. OSURF receives and administers funds from federal and state organizations and from private sources for the purpose of carrying out the educational and research programs of the General University. OSURF is governed by a Board of Directors comprised primarily of management of the General University. In addition, General University employees and facilities are used for virtually all activities of OSURF. Accordingly, OSURF has been reported as a blended component unit in the financial statements.

In preparing the financial statements, all significant transactions and balances between agencies and between the General University and OSURF are eliminated.

The University is a member of the Oklahoma State System of Higher Education, a component unit of the State of Oklahoma, and is included in the comprehensive annual financial report of the State of Oklahoma as part of the Higher Education component unit.

Component Units: Oklahoma State University Foundation (OSU Foundation), is a private nonprofit organization that reports under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to OSU Foundation's financial information, which has been discretely presented. The National Center for Addiction Studies and Treatment Foundation (NCAST) is a nonprofit organization that reports under GASB standards and operates under a December 31 fiscal year-end. NCAST has also been discretely presented.

Financial Statement Presentation: As a member of the Oklahoma State System of Higher Education, the University presents its financial statements in accordance with the requirements of GASB Statement No. 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments* and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities.* The financial statement presentation required by GASB Statements Nos. 34 and 35 provides a comprehensive, entity-wide perspective of the University's assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, expenses, changes in net position, and cash flows.

Basis of Accounting: For financial reporting purposes, the University is considered a specialpurpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

Cash Equivalents

The University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State Treasurer's Cash Management Program are considered cash equivalents.

Investments

The University accounts for its investments at fair value in accordance with I50 of the GASB Codification. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses, and changes in net position.

Accounts Receivable

Accounts receivable consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the State. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts. The University determines its allowance by considering a number of factors, including the length of time accounts receivable are past due, the University's previous loss history, and the condition of the general economy and the industry as a whole. The University writes off specific accounts receivable when they become uncollectible, and payments subsequently received on such receivables are credited to the allowance for doubtful accounts.

Inventories

Inventories are carried at the lower of cost or market on either the first-in, first-out (FIFO) basis, or the average cost basis.

Noncurrent Cash and Investments

Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the statements of net position.

Capital Assets

Capital assets, including right-to-use assets (RTU) and subscriptions, are recorded at cost at the date of acquisition, or acquisition value at the date of donation in the case of gifts. Livestock for educational purposes is recorded at estimated fair value. For equipment, the University's capitalization policy includes all items with a unit cost of \$5 or more, and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Internally generated software has a capitalization threshold of \$1,000. Costs incurred during construction of long-lived assets are recorded as construction in progress and are not depreciated until placed in service.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 40 to 50 years for buildings, 20 to 25 years for infrastructure and land improvements, 10 years for library books, 5 to 7 years for equipment, 3 years for purchased software, and 5 years for internally generated software. Amortization of right-to-use assets and subscriptions are amortized over the shorter of the life of the associated lease term or the remaining useful life of the asset leased.

Deferred Outflows of Resources

The University reports increases in net position generated by its defined benefit pension plan or other postemployment benefits that relate to future periods and costs of restructuring debt as deferred outflows of resources in a separate section of its statements of net position.

Unearned Revenues

Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Compensated Absences

The liability and expense incurred for employee vacation pay are recorded as accrued compensated absences in the statements of net position, and as a component of compensation and employee benefit expense in the statements of revenues, expenses, and changes in net position.

Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the statement of net position date plus an additional amount for compensation-related payments such as Social Security and Medicare taxes computed using rates in effect at that date. The estimated compensated absences liability expected to be paid more than one year after the statements of net position date is included in other long-term liabilities.

Noncurrent Liabilities

Noncurrent liabilities include (1) principal amounts of revenue bonds payable and financed purchase obligations; (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year; and (3) other liabilities (including accrued interest payable) that, although payable within one year, are to be paid from funds that are classified as noncurrent assets.

Pensions and Benefit Plans

The University participates in a cost-sharing multiple-employer defined benefit pension plan. The fiduciary net position of the Teacher Retirement System of Oklahoma (OTRS) has been determined on the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from OTRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The University has a single-employer defined benefit other postemployment benefit (OPEB) plan, providing health insurance and life insurance to retirees (the "OPEB Plans"). At retirement, if an employee is enrolled in the OTRS plan and is participating in the University's health care plan, the retiree may elect to continue health insurance coverage in the University's health care plan. Additionally, the University records an OPEB for the implicit rate subsidy for those retirees that are allowed to remain in the University's health care plan. Benefits are funded under a "pay as you go" funding method and there are no plan assets; however, expenses are recorded as benefits accumulate. For purposes of measuring the total OPEB liability, deferred outflows of resources, and deferred inflows of resources related to OPEB and OPEB expense have been determined on the same basis as they are reported by the OPEB Plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Leases

The University is a party as lessor and lessee for various noncancellable long-term leases. The corresponding lease receivable or lease payable, are recorded in an amount equal to the present value of the expected future minimum lease payments discounted by an applicable interest rate.

Subscription-Based Information Technology Arrangements

The University contracts subscription-based information technology for operating activities for various terms under long-term, non-cancelable agreements. The agreements expire at various dates through 2029 and provide for renewal options ranging from one year to five years.

Deferred Inflows of Resources

The University reports decreases in net position generated by its defined benefit pension plan or other postemployment benefits that relate to future periods and savings of restructuring debt as deferred inflows of resources in a separate section of its statements of net position. Lease-related amounts are recognized at the inception of the lease and are recorded in an amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease.

Net Position

The University's net position is classified as follows:

Net investment in capital assets: This represents the University's total investment in capital assets, right-to-use assets, and subscription-based information technology arrangements, net of accumulated depreciation and amortization, and outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position – expendable: Restricted expendable net position includes resources in which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Restricted net position – nonexpendable: Restricted nonexpendable net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to use prudent decision processes to determine which resources will be applied based on availability of funding, donor intent, and returns available from idle funds.

Income Taxes

The General University, as an integral part of the State, is exempt from federal income taxes for activities which relate to its exempt purpose. OSURF is an organization described in Section 501(c)(3) of the Internal Revenue Code, exempt from federal income tax under Section 501(a) of the Internal Revenue Code for activities which relate to its exempt purpose.

Classification of Revenues

The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, (3) certain federal, state, and local grants and contracts and federal appropriations, and (4) interest on institutional student loans.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, student aid revenues, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

Scholarship Discounts and Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

Reclassification of Prior Years' Financial Statements

In the statements of net position, revenue expenses and changes in net position, and cash flows certain prior year balances have been reclassified to conform to current year presentation. The reclassification more accurately represents revenue and expense activities in the categories presented on the statements. These reclassifications had no effect on the change in net position.

Change in Accounting Principles

In 2023, the University adopted GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement establishes that a subscription-based information technology arrangement results in a right-to-use subscription asset and a corresponding subscription liability. It provides criteria for outlays other than subscription payments, including implementation costs of subscription-based information technology arrangements and requires note disclosures.

As a result of the implementation, the following financial statement line items for fiscal year 2022 were restated:

			As		
			Previously		Effect of
	As	Restated	Reported		Change
Statement of Net Position					
Current Assets					
Prepaid expense	\$	68	\$ -	\$	68

Depreciation and amortization expense		106,331		98,499		7,832	
Prepaid Expense		(68)		-		(68)	

The University also restated Note 7, Note 9, and Note 18 as a result of the implementation.

Note 2: Cash and Cash Equivalents, Other Deposits, and Investments

Cash and Cash Equivalents

At June 30, 2023 and 2022, the carrying amounts of the University's deposits with the State Treasurer and other financial institutions were \$379,080 and \$413,506, respectively. These amounts consisted of deposits with the State Treasurer (\$374,037 and \$408,514), U.S. financial institutions (\$976 and \$970), trustees related to the University's various bond indenture agreements (\$3,920 and \$3,871), and petty cash and change funds (\$147 and \$151), respectively.

By Oklahoma Statute, the State Treasurer is required to ensure that all state funds are either insured by the Federal Deposit Insurance Corporation (FDIC), collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. government obligations. Any deposits with the State Treasurer are pooled with funds of other state agencies, and then in accordance with statutory limitations, placed in banks or invested as the State Treasurer may determine, in the State's name. The University's cash balances deposited with the State Treasurer were \$374,078 and \$409,934, respectively, at June 30, 2023 and 2022. The difference between the carrying amount and the cash balances deposited with the State Treasurer are due to deposits in transit and outstanding checks at June 30.

The University requires that balances on deposit with financial institutions be insured by the FDIC or collateralized by securities held by the cognizant Federal Reserve Bank, in the University's name. The carrying amount and related bank balances of the University's deposits was \$1 and \$1, respectively, at June 30, 2023 and 2022.

Deposits

Some deposits with the State Treasurer are placed in the State Treasurer's internal investment pool *OK INVEST. OK INVEST* pools the resources of all state funds and agencies and invests them in (a) U.S. treasury securities which are explicitly backed by the full faith and credit of the U.S. government; (b) U.S. agency securities which carry an implicit guarantee of the full faith and credit of the U.S. government; (c) money market mutual funds which participate in investments, either directly or indirectly, in securities issued by the U.S. Treasury and/or agency and repurchase agreements relating to such securities; and (d) investments related to tri-party repurchase agreements which are collateralized at 102 percent and, whereby, the collateral is held by a third party in the name of the State Treasurer.

Of funds on deposit with the State Treasurer, amounts invested in *OK INVEST* total \$83,759 and \$70,944 at June 30, 2023 and 2022, respectively.

For financial reporting purposes, deposits with the State Treasurer that are invested in *OK INVEST* are classified as cash equivalents. At June 30, the distribution of deposits in *OK INVEST* is as follows:

		20)23		2022					
OK INVEST Portfolio		Cost		Market Value	Cost	Fair Market Value				
U.S. agency securities	\$	13,948	\$	13,573	\$ 20,406	\$	19,779			
Certificates of deposit		214		214	252		252			
Money market mutual funds		6,246		6,246	3,215		3,215			
Mortgage backed agency securities		15,524		13,714	18,785		17,423			
Municipal bonds		-		-	59		59			
Foreign bonds		246		244	249		246			
U.S. Treasury Obligations		47,581		46,169	 27,978		27,371			
	\$	83,759	\$	80,160	\$ 70,944	\$	68,345			

Agencies and funds that are part of the State's reporting entity in the State's Annual Comprehensive Financial Report are allowed to participate in *OK INVEST*. Oklahoma statutes and the State Treasurer establish the primary objectives and guidelines governing the investment of funds in *OK INVEST*. Safety, liquidity, and return on investment are the objectives that establish the framework for the day-to-day *OK INVEST* management with an emphasis on the safety of capital and the probable income to be derived and meeting the State and its funds and agencies' daily cash flow requirements. Guidelines in the Investment Policy address credit quality requirements, diversification percentages, and specify the types and maturities of allowable investments. The specifics regarding these policies can be found on the State Treasurer's website at <u>https://www.ok.gov/treasurer/</u>. The State Treasurer, at their discretion, may further limit or restrict such investments on a day-to-day basis. *OK INVEST* includes a substantial investment in securities with an overnight maturity as well as in U.S. government securities with a maturity of up to three years.

Participants in *OK INVEST* maintain an interest in its underlying investments and, accordingly, may be exposed to certain risks. As stated in the State Treasurer information statement, the main risks are interest rate risk, credit/default risk, liquidity risk, and U.S. government securities risk. Interest rate risk is the risk that during periods of rising interest rates, the yield and market value of the securities will tend to be lower than prevailing market rates; in periods of falling interest rates, the yield will tend to be higher. Credit/default risk is the risk that an issuer or guarantor of a security, or a bank or other financial institution that has entered into a repurchase agreement, may default on its payment obligations. Liquidity risk is the risk that *OK INVEST* will be unable to pay redemption proceeds within the stated time period because of unusual market conditions, an unusually high volume of redemption requests, or other reasons.

U.S. government securities risk is the risk that the U.S. government will not provide financial support to U.S. government agencies, instrumentalities, or sponsored enterprises if it is not obligated to do so by law. Various investment restrictions and limitations are enumerated in the State Treasurer's Investment Policy to mitigate those risks; however, any interest in *OK INVEST* is not insured or guaranteed by the State, the FDIC, or any other government agency.

Investments

The University invests available resources according to the A&M Board of Regents Institutional Policy for Investing Funds, the Oklahoma State Regents for Higher Education System-wide Policy for Investment of Institutional Funds, and the Investment Policy of the Oklahoma State Treasurer. The short-term investment of agency special and agency relationship funds is directed primarily toward maximizing earnings on the University's working capital while maintaining adequate liquidity to meet the cash flow needs of the University. Short-term allowable monies are invested through the *OK INVEST* Program administered through the Office of the State Treasurer. As an agency of the State of Oklahoma investments in this program are executed in cooperation with the Oklahoma State Treasurer's Office, which serves as the University's official depository.

The Institutional Guidelines for Investment of Funds of the University are directed toward the investment of long-term oriented funds held by the University in a Fixed Income portfolio. The long-term objective of the portfolio is to maximize the returns without exposure to undue risk. Allowable monies are invested in securities permitted by Oklahoma State Statute (Title 62 § 89.2). Whereas fluctuating rates of return are characteristic of the securities markets, the main concern is the long-term appreciation of the assets and the consistency of total return. These investments are managed and held by a third-party investment management fiduciary.

<u>Credit Risk</u> – Risk that an issuer or other counterparty to an investment will not fulfill its obligations. Under state statutes, the State Treasurer may only purchase and invest in (a) obligations of the United States government, its agencies and instrumentalities; (b) prime banker's acceptances; (c) investment-grade obligations of state and local governments; (d) money market funds; (e) collateralized or insured certificates of deposits; (f) negotiable certificates of deposits; (g) prime commercial paper; and (h) repurchase agreements. State law limits investments in obligations of state and local governments to the highest rating from at least one nationally recognized rating agency acceptable to the State Treasurer. Additionally, it is the University's policy to limit its investments in municipal and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations. As of June 30, 2023 and 2022, the University did not directly hold investments in municipal or corporate bonds. Mortgage-backed securities are guaranteed by the federal government.

<u>Interest Rate Risk</u> – Risk that changes in interest rates will adversely affect the fair value of an investment. Investments that are held for longer periods are subject to increased risk of adverse interest changes. Neither the University nor state statutes limit investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates; however, the State Treasurer Investment Policy limits the average maturity on its portfolio to four years, with certain individual securities having more restrictive limits as defined in the policy.

<u>Concentration of Credit Risk</u> – Risk of loss attributed to the magnitude of the University's investment in a single issuer. Neither the University's investment policy nor state statutes place limits on amounts that can be invested in any one issuer; however, the State Treasurer Investment Policy states that, except for U.S. Treasury securities, no more than 50 percent of the State's total funds may be invested in a single security type or with a single financial institution, with diversification percentages being more restrictive on individual securities. At June 30, 2023 and 2022, no investments in any one organization (other than those issued or sponsored by the U.S. government and those in pooled investments) represented 5 percent of total investments.

<u>Custodial Credit Risk</u> – For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities in the possession of an outside party. Investments held by the counterparty are held in the University's name.

At June 30, the fair value of the University's investments consisted of the fo	ollowing:
--	-----------

	 2023		2022
U.S. government securities	\$ 3,450	\$	4,601
U.S. Treasury notes	74,702		76,374
Money market funds	15,004		11,691
Equity securities	3,469		3,121
Mortgage backed securities	1,227		2,566
State Regents Endowment Trust funds	 671		791
Total investments	\$ 98,523	\$	99,144

The University's investments are categorized by maturity dates to reflect the fair values that are sensitive to changes in interest rates.

The University's investment schedule by maturity date as of June 30, 2023, is as follows:

Maturity Year Ending June 30	Gov	U.S. overnment Securities		U.S. Treasury Notes		Total
2024	\$	\$ 169		1,878	\$	2,047
2025		-		14,737		14,737
2026		49		10,409		10,458
2027		66		22,646		22,712
2028		36		11,932		11,968
2029 - 2033		357		13,100		13,457
2034 - 2038	715			-		715
2039 - 2043	1,208		-			1,208
2044 - 2048	176 -			176

Total investmen	ts				\$	98,523

Note 3: Accounts Receivable

Accounts receivable consisted of the following at June 30:

	 2023	2022		
Student tuition and fees	\$ 33,973	\$	31,347	
Auxiliary enterprises and other operating activities	71,143		32,263	
Contributions and gifts	15,614		6,523	
Federal appropriations	2,179		2,128	
Federal, state, and private grants, and contracts	53,470		44,161	
	 176,379		116,422	
Less allowance for doubtful accounts	 13,928		12,134	
Net accounts receivable	\$ 162,451	\$	104,288	

Note 4: Inventories

Inventories consisted of the following at June 30:

	 2023	2	2022		
Bookstore	\$ 2,946	\$	2,158		
Livestock - College of Agriculture	2,630		2,170		
Fire protection publications	3,847		2,528		
Food services	355		360		
Physical plant	557		459		
Other	 1,669		1,733		
	\$ 12,004	\$	9,408		

Note 5: Student Loans Receivable

Student loans made through the Federal Perkins Loan Program (the "Program") comprise substantially all of the loans receivable at June 30, 2023 and 2022. Under this Program, the federal government provides funds for approximately 75 percent of the total contribution for student loans with the University providing the balance. Under certain conditions, such loans can be forgiven at annual rates of 10 percent to 30 percent of the original balance up to maximums of 50 percent to 100 percent of the original loan. The federal government reimburses the University to the extent of 10 percent of the amounts forgiven for loans originated prior to July 1, 1993, under the Program. No reimbursements are provided for loans originated after this date. Amounts refundable to the federal government upon cessation of the Program of approximately \$5,626 and \$7,070 at June 30, 2023 and 2022, respectively, are reflected in the accompanying statements of net position as noncurrent liabilities.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The allowance for uncollectible loans only applies to University funded loans and the University portion of federal student loans, as the University is not obligated to fund the federal portion of uncollected student loans. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2023 and 2022, the allowance for uncollectible loans was approximately \$94 and \$91, respectively.

Note 6: Leases Receivable

The University, acting as lessor, leases various real estate property under long-term, non-cancelable lease agreements. The leases expire at various dates through 2108 and provide for renewal options ranging from one year to five years. During the year ended June 30, 2023, the Entity recognized \$2,108 and \$131 in lease revenue and interest revenue, respectively, pursuant to these contracts. Future minimum lease payments receivable as of June 30, 2023, are as follows:

Year Ending June 30	Principal		Interest	TOTAL		
2024	\$	1,607	\$ 118	\$	1,725	
2025		1,182	104		1,286	
2026		921	94		1,015	
2027		916	84		1,000	
2028		915	75		990	
2029 - 2033		3,171	250		3,421	
2034 - 2038		959	166		1,125

Additional information regarding revenue bonds payable is included at *Note 10*. Additional information regarding capital lease obligations is included at *Note 11*.

Landfill Closure and Postclosure Costs: State laws and regulations require the University to place a final cover on its landfill site and to perform certain maintenance and monitoring functions, including evaluation of well water samples, at the site after closure. The landfill, containing radioactive and chemical waste, is no longer being used, but the University has not placed a final cover on it. Estimated closure and postclosure costs as of June 30, 2023 and 2022, are \$3,500 and \$3,500, respectively. Actual cost may differ due to inflation, changes in technology, or changes in regulations.

Note 10: Revenue Bonds

Revenue bonds payable consisted of the following at June 30:

	2023	2022
3.25% - 5.01% General Revenue Bonds, Federally Taxable Series 2010B, issued in the original amount of \$13,265 and mature in varying annual amounts to August 1, 2023	1,190	2,325
2.00% - 2.75% General Revenue Refunding Bonds, Series 2013A, issued in the original amount of \$17,785 and mature in varying annual amounts to July 1, 2032	9,855	10,720
1.15% - 4.076% General Revenue Bonds, Federally Taxable Series 2016A, issued in the original amount of \$60,300 and mature in varying annual amounts to August 1, 2045	51,830	53,310

Principal and interest on these revenue bonds are collateralized by a pledge of revenues produced by the facilities constructed with the bond proceeds, student activity fees and facility fees, and/or a pledge of certain contributions made for the benefit of the University. In the case of the General Revenue Bonds, the principal and interest is secured by a pledge of the general revenues of the financing system created in fiscal year 2009. General revenues consist of all lawfully available funds excluding: (i) revenues appropriated by the Oklahoma Legislature from tax receipts; (ii) funds whose purpose has been restricted by the donors or grantors thereof to a purpose inconsistent with the payment of obligations; and (iii) funds pledged pursuant to separate bond resolutions to revenue bond issues issued and outstanding prior to the creation of the financing system is currently comprised of the Oklahoma State University-Stillwater and Oklahoma State University-Tulsa campuses. Certain of these bonds payable are callable at the option of the Board of Regents. The General Revenue Bonds have varying maturity dates as noted, with the last payment date in September 2051.

The University is required to maintain certain renewal and replacement and debt service reserves aggregating \$292 in 2023 and 2022. The University's reserve balances exceeded these amounts at June 30, 2023 and 2022.

The University has secured insurance contracts with insurance companies to cover the reserve requirements in the debt agreements of the Oklahoma State University – Okmulgee Student Fee Revenue Bonds, Series 2004. There is no reserve requirement for the General Revenue Bond issues.

The General Revenue and Refunding Bonds, Series 2020A in the par amount of \$118,520, the General Revenue Bonds, Series 2020B in the par amount of \$26,490, and the General Revenue and Refunding Bonds, Federally Taxable Series 2020C in the par amount of \$126,745 closed on May 13, 2020. Gross bond proceeds, including discount and premium, totaled \$149,836, \$30,045, and \$126,486, respectively. These bond issues resulted in a premium of \$35,168 which is being amortized over the life of the bonds.

Proceeds from Series 2020A were used for the current refunding of General Revenue Bonds Series 2010A and 2010C. A portion of the Series 2020C bond proceeds were used for the advance refunding of General Revenue Bonds 2013B and 2013C and for the current refunding of Oklahoma Development Finance Authority leases. The University's refunding resulted in a net present value saving of \$36,974 and a cash flow savings of \$29,423. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$15,105. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense starting in fiscal year 2021 using the straight-line method, which is not materially different than the effective-interest method. At June 30, 2023, the amount of defeased debt remaining outstanding was \$9,915 for General Revenue Bonds 2013B and \$65,480 for General Revenue Bonds 2013C. At June 30, 2022, the amount of defeased debt remaining was \$10,630 for General Revenue Bonds 2013B and \$67,730 for General Revenue Bonds 2013C.

The General Revenue and Refunding Bonds, Series 2021A, in the par amount of \$75,125 and the General Revenue and Refunding Bonds, Federally Taxable Series 2021B \$104,335 closed on May 12, 2021. Gross bond proceeds, including discount and premium totaled \$91,052 and \$104,103, respectively. These bond issues resulted in a premium of \$16,094 which is being amortized over the life of the bonds.

A portion of the Series 2021A proceeds were used for the current refunding of Oklahoma Development Finance Authority leases. Proceeds from Series 2021B were used for the current refunding of Oklahoma Development Finance Authority leases. The University's refunding resulted in a net present value savings of \$28,498 and a cash flow savings of \$39,814. The current refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$6,988. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense starting in fiscal year 2022 using the straight-line method, which is not materially different than the effective-interest method.

The General Revenue Bonds, Series 2022, in the par amount of \$22,455 closed on May 12, 2022. Gross bond proceeds, including premium totaled \$25,244. This bond issue resulted in a premium of \$2,789 which is being amortized over the life of the bonds.

The General Revenue Bonds, Series 2023, in the par amount of \$36,625 closed on May 11, 2023. Gross bond proceeds, including premium totaled \$40,498. This bond issue resulted in a premium of \$3,873 which is being amortized over the life of the bonds.

Maturity Information

The scheduled maturities of the revenue bonds are as follows at June 30, 2023:

Year Ending June 30	Pr	Principal		Interest		Total ayment

Note 11: Financed Purchase Obligations and Leases

Oklahoma Capital Improvement Authority Leases Program

The Oklahoma Capital Improvement Authority (OCIA) is authorized to issue bonds, notes, or other obligations to finance construction of buildings or other facilities for the State of Oklahoma, its departments, and agencies. OCIA may also issue refunding bonds to refinance its existing obligations. The OCIA issues bonds and the State Regents for Higher Education allocate amounts to the University, who then enters into financed purchase agreements with OCIA for projects being funded. The financed purchase agreements provide for the University to make specified monthly payments, however during the years ended June 30, 2023 and 2022, OCIA made principal and interest payments totaling 6,521 and 4,227, respectively, on behalf of the University. These onbehalf payments have been recorded as restricted state appropriations, shown as on-behalf payments for OCIA financed purchase obligations, in the University's statements of revenues, expenses, and changes in net position. The terms of the agreements range from 5 - 25 years and secure the OCIA bond debt and any future debt that might be issued to refund earlier bond issues. There were no undrawn allotments as of June 30, 2023 and 2022.

As OCIA restructures the bond obligations, the financed purchase obligations are also restructured which can result in a gain or loss on restructuring, which is recorded as deferred inflows of resources or deferred outflows of resources and amortized over the shorter of the remaining life of the old financed purchase agreement or the life of the new financed purchase agreement. As of June 30, 2023 and 2022, \$3,180 and \$3,499, respectively, were included in deferred inflows of resources. The balance outstanding for these financed purchase obligations, including premiums, was \$51,452 and \$55,608 as of June 30, 2023 and 2022, respectively.

Note 12: Funds Held In Trust By Others

Beneficial Interest in State School Land Funds

The University has a beneficial interest in the "Section Thirteen Fund State Educational Institutions" and the "New College Fund" held in the care of the Commissioners of the Land Office as Trustees. The University has the right to receive annually 30 percent of the distributions of income produced by "Section Thirteen Fund State Educational Institutions" assets and 100 percent of the distribution of income produced by the University's "New College Fund." The University received \$8,437 and \$7,826 during the years ended June 30, 2023 and 2022, respectively, which is restricted to the acquisition of buildings, equipment, or other capital items. Present state law prohibits the distribution of any corpus of these funds to the beneficiaries. The total trust fund for the University, held in trust by the Commissioners of the Land Office, is approximately \$164,932 and \$142,249 as of June 30, 2023 and 2022, respectively.

Oklahoma State Regents Endowment Trust Fund

The State has matched contributions received under the Endowed Chair Program. The State match amount, plus retained accumulated earnings, totaled approximately \$290,987 and \$287,212 at June 30, 2023 and 2022, respectively, and is invested by the Oklahoma State Regents on behalf of the University. The University is entitled to receive an annual distribution on these funds; however, since legal title of the State match amount is retained by the Oklahoma State Regents, such funds have not been reflected in the accompanying financial statements. With regard to private matching funds, approximately \$3,012 and \$2,920 from donor matching funds and \$448 and \$442 in institutional matching funds as of June 30, 2023 and 2022, respectively, are on deposit with the Oklahoma State Regents for Higher Education, with the remaining matching funds of approximately \$305,185 and \$288,372 as of June 30, 2023 and 2022, respectively, held by the Oklahoma State University Foundation.

Note 13: Retirement Plans

Beginning in 1935, eligible employees were guaranteed a 50 percent income replacement upon retirement at age 65 or 25 years of service. Upon retirement, an eligible retiree could receive supplemental lifetime income via the OSU Supplement Plan. However, with the establishment of the Teacher's Retirement System of Oklahoma (OTRS) in 1943 and establishment of OSU's Defined Contribution Plan in 1971, with TIAA-CREF as the provider, it was determined that no employees would become eligible for supplemental income after June 30, 1996. However, OSU does continue to have a limited number of retirees (or surviving spouses) receiving monthly income from this Plan.

The University has provided eligible employees the opportunity to participate in a defined contribution plan, the TIAA plan (formerly TIAA-CREF), and two defined benefit plans, the Teachers' Retirement System of Oklahoma (OTRS) and the Supplemental Retirement Plan. Effective June 30, 1996, the University terminated the Supplemental Retirement Plan such that no future retirees will be eligible to receive benefits under the plan.

The TIAA and the OTRS plans are integrated with the University's ongoing retirement program. Effective July 1, 1993, these eligibility requirements were modified; however, any employee eligible under the previous requirements was included in the modified plan pursuant to a grandfather provision. Eligible employees include all faculty, exempt and nonexempt continuous regular staff who are scheduled to work at least 1,560 hours annually. Employees hired after June 30, 2004, are not eligible for the integrated plan. The University's retirement program requires the University to contribute 11.5 percent of salary for employees hired on or after July 1, 1993, and for employees hired before July 1, 1993, the University pays the first \$1.5 of the OTRS cost in the fiscal year plus 10 percent of salary over \$7.8 up to \$48 and 11.5 percent on salary over \$48. These retirement contributions are first distributed to the OTRS on mandatory members and optional members who were grandfathered July 1, 1993, as determined by the calculation of OTRS contributions as defined below (see Contributions). Any remaining retirement contributions are distributed to the TIAA plan.

Effective July 1, 2004, eligible new hires must make a one-time irrevocable election. Eligible employees must choose either the Alternate Retirement Plan (ARP) or OTRS. For those electing OTRS, the University will contribute the required member and employer contributions. For those electing the ARP, the University contributes 11.5 percent of salary. All ARP contributions are forwarded to TIAA. Should the eligible new hire not make an election within 30 days of hire, he/she will be default enrolled in OTRS. Regardless of the election of the new hire, the University makes contributions retroactive to the date of hire. The ARP does have a 100 percent cliff vesting provision of two years. Effective July 1, 2018, eligible new hires who choose OTRS must make the required member contribution.

A summary of the line items on the Statements of Net Position are as follows:

Teachers' Retirement System of Oklahoma (OTRS)

Plan Description

Deferred inflows of resources

The University contributes to the OTRS, a cost-sharing multiple-employer defined benefit pension plan sponsored by the State of Oklahoma. The OTRS provides retirement, disability, and death benefits to plan members and beneficiaries. The benefit provisions are established and may be amended by the legislature of the State. Title 70 of the Oklahoma Statutes, Sections 17-101 through 17-116.9, as amended, assigns the authority for management and operation of the OTRS to the Board of Trustees of the OTRS. The OTRS issues a publicly available financial report that includes financial statements and supplementary information for the OTRS. That report may be obtained online at https://oklahoma.gov/trs.html.

(467)

(188,680)

Benefits Provided

OTRS provides defined retirement benefits based on members' final compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. Title 70 O.S. Sec. 17-105 defines all retirement benefits. The authority to establish and amend benefit provisions rests with the State Legislature.

Benefit provisions include:

- Members that joined OTRS prior to November 1, 2017, become 100 percent vested in retirement benefits earned to date after five years of credited Oklahoma service. Members who joined OTRS after October 31, 2017, become 100 percent vested in retirement benefits earned to date after seven years of credited Oklahoma service. Members who joined OTRS on June 30, 1992, or prior are eligible to retire at maximum benefits when age and years of creditable service total 80. Members joining OTRS after June 30, 1992, are eligible for maximum benefits when their age and years of creditable service total 90. Members whose age and service do not equal the eligible limit may receive reduced benefits as early as age 55, and at age 62 receive unreduced benefits based on their years of service. For those joining OTRS after October 31, 2011, the reduced benefit provision applies as early as age 60 and at 65 receive unreduced benefits based on years of service. The maximum retirement benefit is equal to 2 percent of final compensation for each year of credited service.
- Final compensation for members who joined OTRS prior to July 1, 1992, is defined as the average salary for the three highest years of compensation. Final compensation for members joining OTRS after June 30, 1992, is defined as the average of the highest five consecutive years of annual compensation in which contributions have been made. The final average compensation is limited for service credit accumulated prior to July 1, 1995, to \$40 or \$25, depending on the member's election. Monthly benefits are 1/12 of this amount. Service credits accumulated after June 30, 1995, are calculated based on each member's final average compensation, except for certain employees of the state's two comprehensive universities: University of Oklahoma and Oklahoma State University.
- Upon the death of a member who has not yet retired, the designated beneficiary shall receive the member's total contributions plus 100 percent of interest earned through the end of the fiscal year, with interest rates varying based on time of service. A surviving spouse of a qualified member may elect to receive, in lieu of the aforementioned benefits, the retirement benefit the member was entitled to at the time of death as provided under the Joint Survivor Benefit Option.
- Upon the death of a retired member, OTRS will pay \$5 to the designated beneficiary, in addition to the benefits provided for the retirement option selected by the member.
- A member is eligible for disability benefits after ten years of credited Oklahoma service. The disability benefit is equal to 2 percent of final average compensation for the applicable years of credited service.

- Upon separation from OTRS, members' contributions are refundable with interest based on certain restrictions in the plan, or by the IRC.
- Members may elect to make additional contributions to a tax-sheltered annuity program up to the exclusion allowance provided under the IRC under Code Section 403(b).

Contributions

Employees of the University, as OTRS members, are required to contribute to the plan at a rate established by the legislature of the State. For the years ended June 30, 2023 and 2022, the contribution rate for the system members of 7 percent is applied to their total compensation. The University made the majority of the system member's required contributions on behalf of its employees in 2023, 2022, and 2021.

For the years ended June 30, 2023, 2022, and 2021, the local employer contribution rate due from the University was 8.55 percent.

The University's total contributions for employer contributions and fees for the years ended June 30, 2023, 2022, and 2021, were \$16,047, \$16,735, and \$17,615, respectively.

The University's contributions for OTRS members for the years ended June 30, 2023, 2022, and 2021, were \$14,289, \$14,847 and \$15,993, respectively, these amounts being the majority of the required contributions for OTRS members for each year.

In addition for the years ended June 30, 2023 and 2022, the State of Oklahoma contributed onbehalf of the University \$16,910 and \$12,076, respectively. The University recognized these contributions in the University's Statement of Revenues, Expenses, and Changes in Net Position as both revenues and compensation and employee benefit expense. These on-behalf payments do not meet the definition of a special funding situation.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OTRS

At June 30, 2023 and 2023, the University reported a liability of \$324,381 and \$224,504, respectively, for its proportionate share of the OTRS's net pension liability. The net pension liability was measured as of June 30, 2022 and 2021, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates.

The University's proportion of the net pension liability was based on its proportionate share based on the University's actual contributions to the plan relative to the actual contributions of the plan from all participating employers. Based upon this information, the University's proportion was 3.95 percent, 4.39 percent, and 4.64 percent for the years ended June 30, 2023, 2022, and 2021, respectively.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the years ended June 30, 2023 and 2022 the University recognized pension expense in accordance with GASB Statement No. 68, *Accounting and Reporting for Pensions – an amendment of GASB Statement No.* 27 of \$7,351 and \$(1,865), respectively, for the employer share of the pension liability. This expense also includes the \$16,910 and \$12,076, for 2023 and 2022, respectively, on behalf of payments by the State of Oklahoma. At June 30, 2023 and 2022, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

-

	2023					
	Out	eferred flows of sources	Inf	eferred lows of sources		
Differences between expected and actual experience	\$	10,392	\$	4,058		
Changes of assumptions		21,886		-

Changes of assumptions		24 024		2 226		

Differences between expected and actual experience	\$ 14,803	\$ 8,349	
Changes of assumptions	34,924	2,236	
Net difference between projected and actual			
earning on pension plan investments	-	116,604	
Changes in proportion and differences			
between the University's contributions and the			
University proportionate share of contributions	5,839	61,024	
University's contributions subsequent to			
the measurement date	 16,468	 -	_
Total	\$ 72,034	\$ 188,213	

As of June 30, 2023 and 2022, the University reported \$15,779 and \$16,468, as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date, that will be recognized as a reduction of the net pension liability in the years ending June 30, 2023 and 2022, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources at June 30, 2023, related to the OTRS pension plan will be recognized in pension expense as follows:

Year Ending June 30,	
2024	\$ (3,387)
2025	(7,042)
2026	(15,768)
2027	21,257
2028	 (1,229)
	\$ (6,169)

Actuarial Assumptions

The total pension liability in the June 30, 2022 and 2021, actuarial valuations were determined using the following actuarial assumptions:

	2022	2021		
Valuation date	June 30, 2022	June 30, 2021		
Actuarial cost method	Entry age actuarial cost method			
Amortization method	Level percentage of payroll, open			
Remaining amortization period	5 years			
Asset valuation method	5 year market value			
Discount rate	7.00%	7.00%		
Investment rate of return	7.00%	7.00%		
Inflation rate	2.25%	2.25%		
Salary increase rate	3.00%	3.00%		
Payroll growth rate	3.00%	3.00%		
Retirement age	Experience-based tables of rates based			
	on age, service, and gender			
Mortality tables	Various based upon age and gender			

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation for each major asset class as of June 30, 2022 and 2021, are summarized in the following tables:

	Target Asset
Asset Class	Allocation
Domestic Equity	38.3%
International Equity	16.7%
Fixed Income	22.0%
Real Estate	10.0%
	8.0%
Private Equity Private Debt	5.0%
Thvate Debt	5.070
	100.0%
2021	
	Target
	Asset
Asset Class	Allocation
Domestic Equity	43.5%
International Equity	19.0%
Fixed Income	22.0%
Real Estate	9.0%
Alternative Assets	6.5%
	100.0%

2022

Discount Rate

The discount rate used to measure the total pension liability was 7.0 percent ended June 30, 2023 and 2022. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 5 percent of sales, use, and individual income taxes, as established by statute. Based on these assumptions, OTRS' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on the pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following tables present the net pension liability of the University, prior to the separate ARP allocation, calculated using the discount rate of 7.0 percent and 7.0 percent for June 30, 2023 and 2022, respectively, as well as what the University's net pension liability would be if OTRS calculated the total pension liability using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	2023 1% Current Decrease Discount Rate (6.00%) (7.00%)		1% Current 1% crease Discount Rate Increa		1% crease 8.00%)	
University's proportionate share of the						
net pension liability	\$	456,731	\$	324,381	\$	215,574
		2022 1% Current Decrease Discount Rate (6.00%) (7.00%)		1% Increase (8.00%)		
University's proportionate share of the net pension liability	\$	336,955	\$	224,504	\$	106,573

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued OTRS' financial report.

Payable to the Pension Plan

The University reported a payable of \$1,692 and \$1,691 for the outstanding amount of contributions to the pension plan required for the years ended June 30, 2023 and 2023, respectively.

Defined Contribution Plan

On May 8, 1971, the University approved a contract providing for a funded plan for staff retirement, the TIAA plan. The TIAA plan, which is a defined contribution plan qualified under Internal Revenue Code Section 401(a), provides an annuity in the name of the employee based upon contributions made by the University. All contributions to the TIAA are fully vested immediately.

The University's total payroll for the years ended June 30, 2023, 2022, and 2021, was approximately \$552,983, \$515,367, and \$485,935, respectively. The University's contributions to the TIAA were calculated using the base salary amount of approximately \$341,382, \$312,167, and \$293,065 in 2023, 2022, and 2021, respectively. The University funded participant ARP and integrated plan contributions to the TIAA of approximately \$31,658, \$28,246 and \$25,939 in 2023, 2022, and 2021, respectively, which represents approximately 7 percent of covered payroll in each period.

Employees may voluntarily contribute, on a pretax basis, to the 403(b) Supplemental Tax Deferred Annuity Program and/or the 457(b) Deferred Compensation Plan, but such contributions are not considered part of the University's retirement program.

As of June 30, 2023, 2022, and 2021, the TIAA held no related party investments of the University.

Oklahoma Law Enforcement Retirement System (OLERS)

Plan Description

The Oklahoma Law Enforcement Retirement System (OLERS) is administrator of the Oklahoma Law Enforcement Retirement Plan, a cost-sharing defined benefit pension plan established by Oklahoma statutes. OLERS is a component unit of the State of Oklahoma (the "State") and is part of the State's reporting entity. Currently, agencies and/or departments who are members of OLERS are the Oklahoma Highway Patrol and Capitol Patrol of the Department of Public Safety (DPS), the Oklahoma State Bureau of Investigation, the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Alcoholic Beverage Law Enforcement Commission, certain members of the DPS Communications Division, DPS Waterways Lake Patrol Division, park rangers, park managers, and park supervisors of the Oklahoma Tourism and Recreation Department, inspectors of the Oklahoma State Board of Pharmacy and Oklahoma University and Oklahoma State University campus police officers.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OLERS

At June 30, 2023 and 2022, the University reported a liability of \$6,756 and \$425, respectively, for its proportionate share of the OLERS's net pension liability. The net pension liability was measured as of June 30, 2022 and 2021, respectively, and the total pension liability used to calculate the net pension liability which was determined by an actuarial valuation as of those dates.

The University's proportion of the net pension liability was based on its proportionate share based on the University's actual contributions to the plan relative to the actual contributions of the plan from all participating employers. Based upon this information, the University's proportion was 3.43 percent, 3.16 percent, and 3.27 percent for the years ended June 30, 2023, 2022, and 2021, respectively.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the years ended June 30, 2022 and 2021, the University recognized pension expense of \$1,326 and \$143, respectively. At June 30, 2022 and 2021, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2023			
	Deferred		Deferred

Supplemental Retirement Plan

Plan Description

The University sponsors the Supplemental Retirement Plan (the "Plan"), a single-employer public employee retirement system, which was approved in 1971 and terminated as of June 30, 1996. Individuals employed by the University on or after July 1, 1980, when the TIAA-CREF annuity contribution became fully funded, were ineligible for participation in the Plan. Benefits vested upon retirement. The Plan guaranteed eligible employees with 25 years of service, provided they continuously participated in TIAA/CREF and the OTRS, a level of annual retirement benefit if Social Security, the OTRS, and the TIAA-CREF, when applicable, do not equal one-half of the average of the highest three years' earnings. Authority to establish and amend benefit provisions rests with the Board of Regents. The Plan does not issue a stand-alone financial report.

Funding Policy

Contribution requirements of the University are established and may be amended by the Board of Regents. All contributions are made by the University. Benefits are funded under a "pay as you go" funding method; however, expenses are recorded as benefits accumulate.

Other Postemployment Benefits

Life Insurance

Plan Description

The University pays life insurance premiums for individuals who meet the specified criteria to be considered a retiree as of the last day of continuous regular employment. Eligible retirees must (a) be at least 62 years of age and have at least 10 continuous regular years of service, (b) have worked for the University for at least 25 years in a continuous regular appointment, regardless of age, or (c) meet the OTRS guidelines. In addition, the individual must also have been enrolled in the University's life insurance program prior to retirement. Each retiree is eligible to receive \$6 of life insurance coverage at an annual cost to the University of \$.00026 per \$1 of coverage. As of June 30, 2023 and 2022, there were approximately 5,900 active employees and 2,400 retirees. Authority to establish and amend benefit provisions rests with the Board of Regents.

Funding Policy

Contribution requirements of the University are established and may be amended by the Board of Regents. All contributions are made by the University. Benefits are funded under a "pay as you go" funding method and there are no plan assets; however, expenses are recorded as benefits accumulate.

Health Care Implicit Rate Subsidy

Plan Description

The University allows retirees to remain in the University's health care plan, although the retiree is required to pay 100 percent of the premium. By allowing retirees to be included in the same pool as active employees, this gives retirees a benefit of a lower premium cost than if the retiree obtained health insurance on his or her own, which is referred to as the implicit rate subsidy. As of June 30, 2023, there were approximately 5,900 active employees and 180 retirees in the health care plan.

Liabilities, Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Other Postemployment Benefits

At June 30, 2023 and 2022, the University reported a combined liability of \$7,091 and \$13,685, respectively, for the life insurance and health care implicit rate subsidy. For the years ended June 30, 2023 and 2022, the University recognized OPEB expense of \$746 and \$1,737 respectively. The University reported deferred outflows of resources related to other postemployment benefits from the following sources for the years ended June 30, 2023 and 2021, as noted below.

	2023				
	Deferred Outflows of		De	eferred	
			Infl	lows of	
	Res	ources	Res	sources	
Differences between expected and actual experience	\$	1,891	\$	748

	1% Decreas (6.50%)		1% e Increase (8.50%)		
University's total other postemployment benefit	\$ 13,	045 \$ 13,6	85 \$ 14,443		

OTRS/Health Care Plan

Plan Description

At retirement, if an employee is enrolled in the OTRS plan and is participating in the University's health care plan, the retiree may elect to continue health insurance coverage in the University's health care plan. OTRS will pay the first one hundred dollars to one hundred and five dollars of monthly premiums for each participating retiree (not dependents). The actual amount paid by OTRS is determined by total service and average salary at retirement.

As of June 30, 2023 and 2022, the University recorded an asset for other postemployment benefits of \$1,922 and \$5,597 for its proportionate share of the OTRS's OPEB, deferred outflows of \$1,872 and \$1,318 and deferred inflows of \$645 and \$3,889, respectively. These balances were measured as of June 30, 2022 and 2021, and were determined by an actuarial valuation.

Actuarial Assumptions

The other postemployment benefit at June 30, 2023 and 2022, was determined using the following actuarial assumptions:

	June 30, 2023	June 30, 2022			
Actuarial cost method	Entry Ag	ge Normal			
Discount rate	7.00%	7.00%

University's proportionate share of the net other postemployment benefit	\$	3,596	\$	5,597	\$	2,264

Note 14: Risk Management

Due to the diverse risk exposure of the University and its constituent agencies, the insurance portfolio contains a comprehensive variety of coverage. Oklahoma Statutes require participation of all State agencies in basic tort, educator's legal liability, property and casualty programs, and fidelity bonding provided by the Risk Management Division of the Office of Management and Enterprise Services (the "SRMD"). In addition to these basic policies, the University's Department of Risk and Property Management establishes enterprise risk management guidelines for risk assessment, risk avoidance, risk acceptance, and risk transfer.

Oklahoma State University and individual employees are provided sovereign immunity when performing official business within the scope of their employment under the Oklahoma Governmental Tort Claims Act. For risks not protected by sovereign immunity, it is the internal policy of the University's Risk and Property Management department to accept initial risk in the form of retention or deductibles only to the extent that funds are available from the University's general operations or a funded reserve to maintain this risk.

Beyond acceptable retention levels, risk transfer is practiced by purchasing conventional insurance coverage through an insurance broker or through the SRMD. These coverages are outlined as follows:

- The buildings and contents are insured for replacement value. Each loss incident is subject to a \$100 deductible.
- Out-of-state and out-of-country comprehensive general liability, educator's legal liability including employment practices, auto liability, aircraft liability, watercraft liability, leased vehicles, equipment, and fidelity bonds are acquired by the University from the SRMD. To complement coverage provided by State Statute and to meet specific coverage requirements for special grants and/or contracts, additional coverage is purchased based on specific departmental and institutional needs and risks, but the related risks are not considered material to the University as a whole. Claim settlements have not exceeded insurance coverage in each of the past three fiscal years.

Self-Funded Programs

The University's life insurance program was self-funded through December 31, 2003. Effective January 1, 2004, life waivers for disabled employees and their dependents were all that remained in the self-funded plan. Reserves were established at the onset of disability to pay the claims. In 2009, the University reached an agreement to apportion the remaining reserve between the University and the former TPA, American Fidelity Assurance. American Fidelity Assurance assumed all liability for all runoff claims. Effective January 1, 2004, the University's life coverage is handled through an insured plan.

Through June 30, 1999, the University's health care programs were also self-funded. Effective July 1, 1999, the University terminated its self-insurance program, and participated in the State self-insurance program through December 31, 2007. Effective January 1, 2008, the University began participation in an insured program with BlueCross BlueShield of Oklahoma as the provider. The University believes that there is no exposure to pay run-off claims for the previous self-insured program at June 30, 2023. Beginning January 1, 2015, the University's health care program again became self-funded. BlueCross BlueShield is the third-party administrator. The University has employed Lockton Company as a consultant to assist with premium setting, development of plan features, reserve funding and use of third-party stop loss coverage insurance. At June 30, 2023 and 2022, respectively, the University had recorded a liability of approximately \$5,330 and \$5,235, respectively, for claims incurred but not yet paid and is included in accounts payable in the statements of net position.

The University's workers' compensation program is self-funded and is administered by a third party. The University maintains a cash deposit with the administrator and reimburses the administrator for claims paid and administrative expenses on a monthly basis. Benefits provided are prescribed by State law and include lump-sum payments for rated disabilities, in addition to medical expenses and a portion of salary loss, resulting from a job-related injury or illness. The University records a liability for workers' compensation in its financial statements based on annual actuarial valuations. As of June 30, 2023 and 2022, the accrued workers' compensation liability totaled \$3,493 and \$4,722, respectively, computed utilizing a discount rate of 2 percent for each year. The University had claims incurred of \$2,199 and \$1,737 during the years ended June 30, 2023 and 2022, respectively.

The University's unemployment compensation insurance program is also self-funded. Unemployment benefits that separated employees receive are determined by Oklahoma Statutes and are administered by the Oklahoma Employment Security Commission (OESC). As a reimbursing employer, the University is billed quarterly by the OESC for benefits paid to former employees. The Board of Regents requires that the University maintain a minimum of \$700 in reserve to cover claims. This minimum cash balance is considered each year during the rate-setting process.

Note 15: Related Party Transactions

A summary of related party transactions during the years ended June 30, 2023 and 2022, including a description of the relationship and operations are as follows:

Oklahoma State University Foundation

<u>Nature of Relationship</u>: OSU Foundation is a not-for-profit corporation formed to promote and foster the educational, benevolent, and scientific purposes of the University, and to create a fund to be used for any program, project, or enterprise undertaken in the interest of the University, and to promote and foster educational and cultural interests in the State and the United States.

OSU Foundation is governed by an independent Board of Trustees who maintain no position at the University. Although the University does not control the timing or amount of receipts from OSU Foundation, the majority of resources, or income thereon, that OSU Foundation holds and invests are restricted to the activities of the University by the donors. Because these restricted resources held by OSU Foundation can only be used by, or for the benefit of, the University, OSU Foundation is considered a component unit of the University as defined by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Unit*, and is separately presented.

<u>Description of Operations</u>: OSU Foundation acts largely as a fundraising organization: soliciting, receiving, managing, and disbursing contributions on behalf of the University based on terms of a service agreement. Most of the contributions received are designated by the donors to be used for specific purposes or by specific departments. In these instances, OSU Foundation serves essentially as a conduit. Contributions that are not designated are used where the need is considered greatest, as determined by OSU Foundation.

Related party transactions and funds held by OSU Foundation on behalf of the University are as follows as of and for the years ended June 30:

	2023			2022	
Dollar value of transactions for the year ended June 30 Funds disbursed to or on behalf of the University	\$	111,554	\$	82,249	
Funds collected from the University	φ	5,085	φ	3,821	
Nonmonetary goods distributed to the University		1,836		4,492	
Total net assets held on behalf of or for the benefit of the University at June 30		1,565,076		1,394,121	
Related party receivables and payables at June 30		1,505,670		1,571,121	
Due to the University		9,115		1,290	
Due from the University		2,749		2,516	

National Center for Addiction Studies and Treatment Foundation

<u>Nature of Relationship</u>: NCAST is a nonprofit corporation formed to improve the lives of individuals in Oklahoma and across the nation that are affected by pain and substance abuse disorders through exceptional programs in research, education, prevention, treatment, and advocacy.

NCAST is governed by a Board of Directors primarily appointed by the University. The University does not have an ownership interest but has the ability to remove appointed members of the governing body. NCAST is considered a component unit of the University as defined by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Unit,* and is discretely presented.

<u>Description of Operations</u>: NCAST was created as a result of a consent settlement agreement between the State of Oklahoma and Purdue Pharma, Inc. (Purdue) in March 2019. The settlement agreement provided for a \$102,500 payment to be made to NCAST by Purdue. In addition, the owners of Purdue agreed within the settlement agreement to donate \$75,000 to NCAST.

Cowboy Athletics, Inc. (CAI)

<u>Nature of Relationship</u>: CAI is a not-for-profit Oklahoma corporation organized to support the University and other educational programs associated with the University.

CAI is governed by a seven-member Board of Directors, three of whom serve by virtue of their association with the University. The remaining four members are elected by the members. Although the University does not control the timing or amount of receipts from CAI, the majority of resources or income thereon that CAI holds and invests is restricted to the activities of the University. CAI is considered immaterial to the operations of the University and therefore, is not considered as a component unit.

CAI also operates a golf course (Karsten Creek) and related facilities in Stillwater, Oklahoma. The golf course is primarily utilized as a teaching and practice facility by the University for the men's and women's golf teams. Use of the course is also open to golf course members and others based on established membership and usage fee schedules.

<u>Description of Operations</u>: CAI revenues consist primarily of contributions from the private sector, including individuals and corporations, green fees, pro shop sales, food and beverage sales, and membership fees. Charitable gifts made for use by the University's Department of Intercollegiate Athletics are received, processed, and administered by OSU Foundation. Such contributions may be transferred to CAI at which time CAI recognizes contribution revenue. Other contributions are recorded when received or when a donor has announced an intention to give, and CAI believes that collection is probable. Green fees are recognized when earned. Pro shop sales, and food and beverage sales, are recorded when a sale is made – essentially on the cash basis. Membership fees are assessed on a calendar year basis, are nonrefundable, and are recognized in the year for which they apply. Funds are expended for any purpose consistent with promoting the primary objectives of CAI.

Related party transactions and funds held by CAI on behalf of the University as of and for the years ended June 30:

	2023		2022	
Dollar value of transactions for the year ended June 30				
Funds disbursed to or on behalf of the University	\$	72	\$	13
Funds collected from the University		4,743		3,799
Nonmonetary goods distributed to the University		-		2,371
Related party receivables and payables at June 30				
Due to the University		7		13
Due from the University		278		264

In fiscal year 2022 CAI transferred equipment in the amount of \$537 and supplies in the amount of \$1,834 to the University. The acquisitions are reflected as capital from grants, gifts, and affiliates of \$2,371 in the statement of revenues, expenses, and changes in net position of the University for the year ended June 30, 2022.

Oklahoma State University Alumni Association

<u>Nature of Relationship</u>: Oklahoma State University Alumni Association (the "Association") is a not-for-profit corporation formed to provide a corporate body through which alumni may unify their efforts to promote and encourage the growth and development of the University. The Association is considered immaterial to the operations of the University and therefore, is not separately presented as a component unit.

<u>Description of Operations</u>: The Association's revenues consist primarily of dues, investment earnings, support from the University, and revenue from Association sponsored activities. Funds are expended for any purpose consistent with promoting the primary objectives of the Association. Related party transactions and funds held by the Association on behalf of the University are as follows as of and for the years ended:

	2023		2022	
Dollar value of transactions for the year ended June 30				
Funds disbursed to or on behalf of the University	\$	538	\$	519
Funds collected from the University		659		648

Foundation for the McKnight Center for the Performing Arts

<u>Nature of Relationship</u>: The Foundation for the McKnight Center for the Performing Arts (the "McKnight Center") is a not-for-profit corporation formed to provide support and assistance to the University in connection with the performing arts including, but not limited to, providing funding for the performing arts, long-term management, and operations of the McKnight Center. It is considered immaterial to the operations of the University and therefore, is not separately presented as a component unit.

<u>Description of Operations</u>: The McKnight Center revenues consist primarily of program revenue, ticket sales, investment earnings, and support from the Oklahoma State University Foundation. Funds are expended for any purpose consistent with promoting the primary objectives of the McKnight Center.

Note 16: Disclosures About Fair Value of Investments

The University categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following tables present the fair value measurements of investments recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2023 and 2022:

	2023									
Description	Level 1		Level 2		L	evel 3	Total			
Investments										
	¢		¢	2 450	¢		¢	2 450		
U.S. government securities	\$	-	\$	3,450	\$	-	\$	3,450		
U.S. Treasury notes		-		74,702		-		74,702		
Money market funds		15,004		-		-		15,004		
Equity securities		-		-		3,469		3,469		
Mortgage backed securities		-		1,227		-		1,227		
State Regents Endowment										
Trust				671				671		
Total investments	\$	15,004	\$	80,050	\$	3,469	\$	98,523		

		2022							
Description	Level 1		L	evel 2	Le	evel 3	Total		
Investments									
U.S. government securities	\$	-	\$	4,601	\$	-	\$	4,601	
U.S. Treasury notes		-		76,374		-		76,374	
Money market funds		11,691		-		-		11,691	
Equity securities		-		-		3,121		3,121	
Mortgage backed securities		-		2,566		-		2,566	
State Regents Endowment									
Trust				791		-		791	
Total investments	\$	11,691	\$	84,332	\$	3,121	\$	99,144	

U.S. government securities, U.S. Treasury notes, mortgage backed securities, and State Regents Endowment Trust funds are valued on the basis of evaluated prices provided by independent pricing services when such processes are believed to reflect the fair market value of such securities and are classified within Level 2 of the fair value hierarchy.

Money market funds are principally valued at the regular trading session closing price on the exchange or market in which such funds are principally traded, on the last business day of each period presented and are classified within Level 1 of the fair value hierarchy.

Equity interest in a closely held entity is accounted for as an equity method investment and is not included in the table above.

Note 17: Commitments, Contingent Liabilities, and Uncertainties

The University had outstanding commitments under construction contracts of approximately \$73,874 and \$100,672 at June 30, 2023 and 2022, respectively.

The University is party to various lawsuits arising out of the normal conduct of its operations. In the opinion of University management, the ultimate resolution of these matters will not have a material adverse effect upon the University's financial position.

The University participates in certain federal grant programs. These programs are subject to financial and compliance audits by the grantor or its representative. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Management believes disallowances, if any, will not be material.

Note 18: Natural Classifications with Functional Classifications

The University's operating expenses by functional classification were as follows for the years ended June 30, 2023 and 2022:

	_	Year Ended June 30, 2023 Natural Classification

Notes to Financial Statements – Oklahoma State University Foundation

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands)

Organization

Oklahoma State University Foundation (the "Foundation") is a not-for-profit corporation formed in 1961 to promote the educational, benevolent, and scientific purposes of Oklahoma State University (the "University" or "OSU"). The Foundation, through the contributions it receives, provides funds for University projects and programs which cannot be funded by appropriations or grants from state and federal governments, or for which existing appropriations are inadequate.

Reporting Entity

The consolidated financial statements include the assets, liabilities, net assets, changes in net assets, and cash flows of the Foundation and affiliates. The Foundation has approximately 6,200 active component funds, two affiliated organizations, and two single-member limited liability companies. The affiliated organizations, the Foundation for Engineering at Oklahoma State University, Inc. (FEOSU), which was incorporated on October 10, 2008, and Multilateral Endowment Management Company (MEMCO) incorporated on July 18, 2019, are included with the Foundation in the accompanying consolidated financial statements because the Foundation has an economic interest in the organizations and controls the affiliated organizations' Board of Trustees. Further, distributions made by FEOSU exclusively benefit the charitable purposes of the Foundation. The Foundation Real Estate, LLC and as such the accompanying consolidated financial statements include all assets, liabilities, revenues, and expenses of the LLCs. All material interorganization transactions of the affiliated organization and the LLCs have been eliminated in consolidation. The Foundation, its affiliates, and the LLCs are collectively referred to as the Foundation throughout these consolidated financial statements.

Operations

The Foundation acts primarily as a fundraising organization, soliciting, receiving, managing, and disbursing contributions on behalf of the University. Distribution of amounts held in the funds of the Foundation is subject to the approval of the Foundation and the availability of monies. Accordingly, the accompanying consolidated financial statements generally reflect expenditures which have been submitted to and approved by the Foundation as of the financial reporting date.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Basis of Presentation

The Foundation follows the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). The ASC is the single source of authoritative guidance for accounting principles generally accepted in the United States of America (U.S. GAAP) for nongovernmental entities. The Foundation's consolidated financial statements have been prepared on the accrual basis of accounting and to ensure the observance of limitations and restrictions placed on the use of available resources, the Foundation maintains its accounts in accordance with the principles and practices of fund accounting. All interfund activities have been eliminated in the accompanying consolidated financial statements.

Concentrations of Credit

The Foundation has certain concentrations of credit risk with financial institutions in the form of uninsured cash and time deposits. For purposes of evaluating credit risk, the stability of financial institutions conducting business with the Foundation is periodically reviewed and management believes that credit risks related to such balances are minimal.

The Foundation received contributions from five and four donors totaling approximately \$130,082,000 and \$48,863,000 in the years ended June 30, 2023 and 2022, respectively. These contributions represent 55 percent and 30 percent of total contribution revenue in 2023 and 2022, respectively. Net contributions receivable totaling approximately \$131,929,000 and \$77,493,000 are due from 12 and 11 donors at June 30, 2023 and 2022, respectively. These receivables represent 73 percent and 62 percent of total net contributions receivable at June 30, 2023 and 2022, respectively.

The Foundation has a closely held stock that represents approximately 9 percent and 11 percent of the total investment balance at June 30, 2023 and 2022, respectively.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Liquidity and Availability

Financial assets available for general expenditures, that is, without donor or other restrictions limiting their use, within one year of the consolidated statement of financial position date, comprise the following:

	2023	2022
Cash and cash equivalents	\$ 10,651,086	\$ 6,235,971
Short-term investments and unrestricted		
liquid investments	254,071,385	225,656,921
Interest and other receivables	4,217,006	3,139,372
Unendowed investments	81,728,362	61,894,959
Endowment spending-rate distributions	35,510,620	30,955,860
	\$ 386,178,459	\$ 327,883,083

The Foundation's endowment funds consist of donor-restricted endowments and funds designated as endowments. Income from donor-restricted endowments is restricted for specific purposes, with the exception of the amounts available for general use. Donor-restricted endowment funds are not available for general expenditure.

Consistent with the objectives of the Foundation's investment policy, cash and investments are managed such that funds are available as expenditures, liabilities, and other obligations come due. As part of the Foundation's liquidity management plan, the Foundation invests cash in excess of expected short-term needs in short-term investments.

The Foundation receives management fees on funds held in the investment pool and a gift allocation on gifts received. For the fiscal year ending June 30, 2023, management fees and gift allocations were approximately \$10,758,000 and \$1,985,000, respectively. For the fiscal year ending June 30, 2022, management fees and gift allocations were approximately \$10,794,000 and \$2,021,000, respectively. The management fees and gift allocation provide funds necessary to fulfill the Foundation's general expenditure obligation.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Investments

Investments consisted of the following at June 30:

	2023	2022
Marketable securities		
Fixed income		
Cash and short-term funds	\$ 60,774,094	\$ 98,535,041

Total investments	\$1,384,498,915	\$1,264,843,573

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Net investment returns consists of the following for the years ended June 30:

	 2023	2022
Interest and dividends	\$ 18,129,294	\$ 8,989,059
Investment fees	(2,755,685)	(7,320,677)
Net realized and unrealized gains (losses)	54,494,650	(9,865,024)
Change in fair value of perpetual trusts	 973,602	 (2,167,193)
Net investment returns	\$ 70,841,861	\$ (10,363,835)

Contributions, Interest, and Other Receivables

Unconditional contributions receivable, including amounts due under pledge agreements, are expected to be collected as follows at June 30:

	2023	2022
Contributions receivable in		
Less than one year	\$113,428,448	\$ 49,875,406
One year to five years	82,339,394	83,388,970
Over five years	47,261,290	50,803,746
	243,029,132	184,068,122
Less:		
Unamortized discount (4.33% - 8.81%)	44,080,570	48,155,503
Allowance for uncollectible pledges	18,825,382	10,485,474
	\$180,123,180	\$125,427,145

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Unconditional contributions receivable net of discount and allowance that are with donor restrictions are described in the table below at June 30:

	2023	2022
Intercollegiate athletics	\$ 88,499,497	\$ 50,352,291
General University support	31,348,719	33,454,109
Awards and scholarships	33,704,597	7,281,394
Facilities and equipment	22,544,033	33,060,861
Other	4,026,334	1,278,490
	\$180,123,180	\$125,427,145

Conditional promises to give include certain gifts that the Foundation has been named as the beneficiary in an estate plan or a valid will. No amounts have been recognized in the consolidated financial statements for conditional promises to give because the conditions on which they depend have not been met. The Foundation does not currently have sufficient information to estimate the amounts of conditional promises to give.

Interest and other receivables consist of the following at June 30:

	2023	2022
Interest and other receivables		
Receivable from OSU	\$ 2,748,869	\$ 2,516,032
Accrued interest and other receivables	1,468,137	623,340
	\$ 4,217,006	\$ 3,139,372

Interest and other receivables are expected to be collected within one year.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Endowment Disclosures

The Foundation's endowment consists of approximately 4,000 and 3,900 funds at June 30, 2023 and 2022, respectively, established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the trustees to function as endowments. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The trustees of the Foundation have chosen to preserve the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies net assets with donor restrictions not subject to appropriation for expenditure (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund is classified as net assets with donor restrictions available for appropriation or expenditure until those amounts are expended by the Foundation in a manner consistent with the standard of prudence prescribed by OK UPMIFA. In accordance with OK UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the Foundation and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Foundation
- The investment policies of the Foundation

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Endowment net asset composition by type of fund as of June 30, 2023, is as follows:

In addition to permanently restricted endowment funds, the Foundation also has interests in perpetual trusts and charitable remainder trusts which are managed by third parties, charitable trusts which are managed by the Foundation, and permanently restricted contributions receivable. These assets are not a part of the Foundation's endowment and therefore are not included in the endowment disclosures.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Fair Value Measurements

The Foundation's Investment Committee, appointed by the Board of Trustees, is responsible for the overall management of the Foundation's investments, including evaluating, hiring, and terminating external service providers, the primary custodial bank, consultants, and securities lending agents. The authority for investment decisions and retention of additional custodians and brokers, when appropriate to accomplish or facilitate an investment transaction, is delegated to MEMCO in accordance with the investment management agreement between the Foundation and MEMCO and MEMCO's fiduciary duties to the Foundation. The Committee 1) reviews the total investment program, 2) establishes and maintains the Investment Policy statement, including asset allocation guidelines, and 3) reviews performance, capabilities, systems, and staffing of MEMCO. MEMCO performs all duties necessary for the efficient administration and management of investment assets. MEMCO is also responsible for the day-to-day operations involving due diligence. The valuation process for investments is the responsibility of MEMO and all other fair value measurements are the responsibility of the Foundation's accounting department. Fair value measurements for beneficial interests in trusts and funds held on behalf of OSU are prepared by the Foundation's accounting department and approved by the Board of Trustees during its review and approval of the Foundation's periodic internal financial statements.

The methods and assumptions used to estimate the fair value of assets and liabilities in the consolidated financial statements, including a description of the methodologies used for the classifications within the fair value hierarchy, are as follows:

Cash and Cash Equivalents

The asset's carrying amount approximates fair value due to its short maturity.

Investments

All of the Foundation's marketable securities are valued by nationally recognized third-party pricing services, except for certain commodities which are valued by the fund/account manager. The Foundation gives highest priority to quoted prices in active markets for identical assets accessed at the measurement date. An active market for the asset is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis and the Foundation classifies all such assets as Level 1. The Foundation gives a Level 2 priority to valuation prices where the valuation process involves inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly, using the market approach. Level 2 inputs under the market approach include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets where there is not sufficient activity, and/or where price quotations vary substantially either over time or among market makers, or in which little information is released publicly. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Nonmarketable securities, except for closely held stock, are carried at fair value which is based on the NAV as provided by the fund manager and/or adjusted by the Foundation. The Foundation uses management agreements, analyst notes, audited financial statements, and underlying investment holdings to evaluate the fund manager's valuation methodology (*i.e.*, in determining whether the fund manager follows ASC 820) and considers various other factors including contributions and withdrawals to the fund and monitoring unaudited interim reporting to determine if any adjustment to the NAV is necessary. Closely held stock is carried at fair value which is based on independent appraisal or Foundation management. Closely held stock is categorized as Level 3 in the fair value hierarchy.

Contributions Receivable

The asset is carried at cost net of a discount to present value using a rate which is commensurate with the risks involved on the gift date and an allowance for uncollectible accounts at the financial reporting date. Risks associated with individual gifts are assessed annually through the Foundation's review of the status of each gift. Fair value is the price a market participant would pay to acquire the right to receive the cash flows inherent in the promise to pay. Due to inclusion of a discount to net present value and allowance for uncollectible accounts, the carrying value approximates fair value.

Interest and Other Receivables

The asset is carried at cost, which approximates fair value due to the short maturity of such amounts.

Other Property Investments

The asset's carrying amount is based on the fair value of the assets at the time of donation or purchase (*i.e.*, cost basis) and reduced for impairments to their net realizable value based on facts and circumstances at the time of the determination. Property investments are not held for long-term investment purposes; therefore, management believes the carrying amount approximates fair value.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Beneficial Interests in Trusts

The beneficial interest is carried at fair value, which is based on the present value of the expected future cash inflows from the trusts. The fair value of the underlying trust assets is based on quoted market prices when available or the best estimate of fair value as determined by the third-party trustee. The Foundation's valuation technique considers the fair value of the assets held in the trust and applies a discount rate to convert such amounts to a single present value amount when appropriate. The discount rate used by the Foundation reflects current market conditions including the inherent risk in the underlying assets and the risk of nonperformance by the trustee. Due to the significant unobservable inputs required to estimate the expected future cash receipts from the trust agreements under the income approach, the Foundation's beneficial interest is classified as Level 3 in the hierarchy.

Other Assets

The primary other asset is cash surrender values on life insurance policies for which the Foundation is the beneficiary, and as such, the carrying value approximates fair value.

OSU Support Payable and Accounts Payable and Accrued Liabilities

The carrying amount of the liabilities approximates fair value due to the short maturity of such amounts.

Funds Held on Behalf of OSU

The liabilities are carried at fair value as determined using the income approach (expected future cash outflows). Fair value is based on the fair value of the cash and investment assets held by the Foundation for the benefit of OSU. The specific assets held have been classified within the hierarchy for investments (as discussed above) or are cash and cash equivalents. The related and associated liability is classified as Level 3 in the hierarchy as there is no market for a similar liability and certain principal inputs (*i.e.*, fair value inputs of nonmarketable assets in the portfolio and management's allocation for shares in the pool) are unobservable and significant to the overall fair value measurement.

Obligations Under Split-Interest Agreements

The liabilities' fair value is determined by discounting the future cash flows at rates that could currently be negotiated by the Foundation for borrowings of similar amounts. The carrying value approximates the liabilities' fair value.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Unearned Revenue, Line of Credit, and Note Payable

The liabilities are carried at cost, which approximates fair value due to the short maturity of those amounts and the variable rates of the notes payable.

Assets and liabilities measured at fair value on a recurring basis are classified within the fair value hierarchy at June 30, 2023, as follows:

		Total		Level 1		Level 2		Level 3

(a) In accordance with ASC 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

The following table summarizes the purchases and issuance of the Foundation's Level 3 assets and liabilities during the year ended June 30:

	Benefi Interes Trus	ts in	 s Held on If of OSU
Purchases/issuances Contributions	\$ 7	- 59,569	\$ 43,000
Total purchases/issuances and contributions	\$ 7	59,569	\$ 43,000

In the ordinary course of business, the Foundation is subject to risk from adverse fluctuations in foreign exchange, interest rates, and commodity prices. The Foundation manages these risks through use of derivative financial instruments, primarily futures, and forward contracts. These contracts are short-term commitments (approximately eight weeks) to buy or sell at a future date a commodity or currency at a contracted price and may be settled in cash or through delivery. Counterparties to these contracts are major financial institutions. The Foundation is exposed to credit loss in the event of nonperformance by these counterparties. There were no derivative assets as of June 30, 2023, or June 30, 2022. Realized and unrealized gains (losses) on derivatives are recorded as net investment return in the consolidated statements of activities.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

The Foundation's investments in certain entities that calculate net asset value (NAV) per share and for which there is not a readily determinable fair value are summarized by category as follows:

	Fair Value		Fair Value Unfunded Commitments June 30, June 30,		Redemption Frequency (If Currently	Redemption Notice		Lock Up

Equities – hedged equity – credit-related – Funds which invest long and short in a variety of global debt and equity securities, with investment strategies including long/short corporate and assetbacked credit, credit arbitrage, and structured credit.

Equities – hedged equity – multi-strategy funds – Fund that invests in a wide range of global investment strategies through master feeder fund structures. The investment strategies primarily include long/short equity, arbitrage, and other relative value strategies, corporate credit, structured credit, and global currencies.

Equities – hedged equity – long/short funds – Funds which invest in global equity securities both long and short.

Equities – hedged equity – diversifier funds – Funds that invest in a wide range of global investment strategies through master feeder structures. The strategies primarily include relative value, systematic, and discretionary global macro.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Equities – hedged equity – event-driven funds – A fund that invests across the capital structure in a wide range of global securities, with a focus on near- to medium-term catalyst.

Equities – long-only – domestic equities fund – A fund that invests in common and preferred stock from issuers located primarily in the United States.

Equities – long-only – emerging markets funds – Funds which invest in common and preferred stock from issuers in emerging market countries.

Equities – *long-only* – *international funds* – Funds that invest in common and preferred stock from issuers in emerging market countries.

Equities – private equity funds – Funds structured as limited partnerships and trusts, which invest in a variety of areas including foreign investments, growth equities, performing and distressed debt, emerging markets, diversified fund of funds, and mid-market growth companies. The private equity category is mature, with existing commitments in their harvest periods. The Foundation anticipates receiving half of the distributions over the next three years and then remaining distributions will decrease until fully distributed by approximately 2027. The Foundation intends to utilize these distributions to acquire additional private equity investments.

Fixed income – global fixed income fund – Fund which seeks to generate absolute returns regardless of market conditions through strategic investment in countries, currencies, sectors, and securities.

Global equity futures - Funds which invest long and short in a wide range of equities.

Real assets – private funds – Funds structured as limited partnerships to invest in private real assets. This category is mature, with existing commitments in their harvest periods. The Foundation anticipates receiving half of the distributions over the next three years and then remaining distributions will decrease until fully distributed by approximately 2027. The Foundation intends to utilize these distributions to acquire additional private equity investments.

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

The following table summarizes the valuation techniques and significant unobservable inputs used for the Foundation's assets and liabilities that are categorized within Level 3 of the fair value hierarchy:

	Fair Value	e, June 30,	Valuation	Unobservable
Investment Type	2023	2022	Techniques	Input (c)
Assets				
Closely held stock	\$ 121,964,253	\$ 134,170,724	Market approach	EBITDA multiple (b)

				Book multiple (b)
			Inco me appro ach	Capitalization rate
				Discount for lack of
				marketability (a)
Beneficial interest			Discounted	
in trusts	26,125,258	25,989,398	cash flows	Discount rate (a)
				Expected rate of return (d)
Liabilities				
Funds held on behalf				
ofOSU	7,868,797	7,939,891	Inco me appro ach	Present value of future cash outflows (e)

Note 19: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

- a) Represents amounts used when the Foundation has determined that market participants would take into account these discounts or premiums when pricing the asset or liability.
- b) Represents amounts used when the Foundation has determined that market participants would use such multiples when pricing the investments.
- c) Significant increases or decreases in any of the above unobservable inputs in isolation may result in a significantly lower or higher fair value measurement.
- d) Represents the net fair market value of assets to be paid to the Foundation based on terms stated in the trust agreement.
- e) Represents the respective agency's ownership interest in the Foundation's investment pool, *i.e.*, the underlying assets which are measured at fair value. The unobservable inputs for the custodial liability are the same as those for the Foundation's investment pool as disclosed.

Notes to Financial Statements – National Center for Addiction Studies and Treatment Foundation

Note 20: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands)

Nature of Operations and Reporting Entity

The Oklahoma State University (the Foundation) is a nonprofit 501(c)(3) Oklahoma corporation established in 2019. The Foundation is a component unit of Oklahoma State University (the University.) The mission of the Foundation is "to improve the lives of individuals in Oklahoma and across the nation that are affected by pain and substance abuse disorders through exceptional programs in research, education, prevention, treatment, and advocacy."

The Foundation was created as a result of a consent settlement agreement and decree between the state of Oklahoma and Purdue Pharma, Inc. (Purdue) in March 2019. The settlement was reached as a result of litigation filed by the Attorney General of Oklahoma on behalf of the state against Purdue alleging certain actions taken by Purdue that led to the opioid crisis within the state. The settlement agreement provided for a \$102,500,000 payment to be made to the Foundation by Purdue. In addition, the owners of Purdue agreed within the settlement agreement to donate \$75,000,000 to the Foundation.

Basis of Accounting and Presentation

The accompanying financial statements of the Foundation have been prepared on the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place. Operating revenues and expenses include exchange transactions. Investment income is included in nonoperating revenues (expenses). When an expense is incurred that can be paid using either restricted or unrestricted resources, the Foundation's policy is to use prudent decision processes to determine which resources will be applied based on availability of funding, donor intent, and returns available from idle funds.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

The Foundation considers all liquid investments with original maturities of three months or less to be cash equivalents. At December 31, 2022 and 2021, cash equivalents consisted primarily of money market sweep accounts.

Note 20: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

Investments and Investment Income

Investments are carried at fair value. Fair value is determined using quoted market prices. Investment income includes dividend and interest income, as well as the market value gains from the sale of investments.

Net Position

Net position of the Foundation is classified in two components on the accompanying balance sheet.

- Restricted expendable net position is made up of noncapital assets that must be used for a particular purpose, as specified by creditors, grantors, or donors external to the Foundation. At December 31, 2022 and 2021, restricted expendable net position was available for support of the National Center for Addiction Studies and Treatment at Oklahoma State University's Center for Health Sciences.
- Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted net position.

Classification of Revenues

The Foundation has classified its revenues as either operating or nonoperating revenues according to the following criteria.

Operating revenues include activities that have the characteristics of exchange transactions or nonexchange transactions that constitute the Foundation's principal ongoing operations, such as:

- 1. Gifts and contributions
- 2. Settlement income

Nonoperating revenues include activities that have the characteristics of nonexchange transactions, but do not constitute the Foundation's principal ongoing operations, such as:

- 1. Other revenue sources that are defined as nonoperating revenues by Governmental Accounting Standards Board (GASB) Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Government Entities That Use Proprietary Fund Accounting*
- 2. Investment income classified under GASB Statement No. 34

Note 20: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

Income Taxes

The Foundation is organized as an Oklahoma nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in 501(c)(3). Contributions to the Foundation qualify for the charitable contribution deduction under Section 170(b)(1)(A). The Foundation is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Foundation is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purposes. The Foundation has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS for the years ended December 31, 2022 and 2021.

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Foundation's deposits may not be returned to it. The Foundation's deposit policy for custodial credit risk requires compliance with the provisions of state law.

By Oklahoma statute, the State Treasurer is required to ensure that all state funds are either insured by the Federal Deposit Insurance Corporation (FDIC), collateralized by securities held by the cognizant Federal Reserve Bank in the Foundation's name, or invested in U.S. government obligations.

Investments

The Foundation may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and in bank repurchase agreements. It may also invest to a limited extent in corporate bonds and equity securities.

At December 31, 2023, the Foundation had investments in equities, mutual funds and corporate bonds, that were transferred from cash and cash equivalents from the prior year ended December 31, 2021.

Interest Rate and Investment Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments that are held for longer periods of time are subject to increased risk of adverse interest changes. Neither the Foundation nor state statutes limit investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. Investments in certain bonds and mutual funds are at risk for price fluctuations which may result in realized and unrealized losses.

Note 20: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

Credit Risk

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. It is the Foundation's policy to limit its investments in corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations. At December 31, 2022 and 2021, the Foundation's investments in money market mutual funds were rated AAA by Standard & Poor's and Aaa by Moody's Investors Service.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty the Foundation will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investments held by counterparty are held in the Foundation's name.

Concentration of Credit Risk

The Foundation places no limit on the amount that may be invested in any one issuer. At December 31, 2022 and 2021, no investments in any one organization (other than those issued or sponsored by the U.S. government) represented 5 percent of total investments.

Summary of Carrying Values

The carrying values of deposits and investments shown above are included in the accompanying balance sheet as follows:

	2022	2021
Carrying Value:		
Cash, Money Market and Deposits	\$ 73,805,266	\$ 133,915,139
Investments:		
Equities	5,104,646	-
Corporate Bonds	11,877,892	-
Mutual Funds	61,075,649	-
Total	\$ 151,863,453	\$ 133,915,139
Included in the Following Balance Sheet Caption:		
Cash and Cash Equivalents	\$ 73,805,266	\$ 133,915,139

Note 20: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

At December 31, the fair value and costs of the Foundations' investments consisted of the following:

	202 Cos	_	Fa	air Market Value
		<u> </u>		Vuluo
Equities	\$ 5,00	03,207	\$	5,104,646
Corporate Bonds	11,81	13,591		11,877,892
Mutual Funds	59,56	60,565		61,075,649
Total	\$ 76,37	77,363	\$	78,058,187

The Foundation's investment schedule by maturity date as of December 31, 2022, is as follows:

Maturity Year	C	orporate	
Ending December 31,		Bonds	Total
2023	\$	959,507	\$ 959,507
2024		1,069,159	1,069,159
2025		1,081,734	1,081,734
2026		1,088,122	1,088,122
2027		967,287	967,287
2028		835,049	 835,049
	\$	6,000,858	6,000,858
Investments Not Subject to Maturity [Dates

Disclosures About Fair Value of Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.
- **Level 3** Unobservable inputs supported by little or no market activity and significant to the fair value of the assets.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Foundation had no Level 3 investments at December 31, 2023 and 2022.

Assets measured at fair value on a recurring basis are classified within the fair value hierarchy at December 31, 2023 as follows:

Description	Level 1	Level 2	Level 3		Total
Investments					
Equities	\$ 5,104,646	\$-	\$	-	\$ 5,104,646
Corporate Bonds	-	11,877,892		-	11,877,892
Mutual Funds	61,075,649	-		-	61,075,649
Total investments	\$66,180,295	\$11,877,892	\$	-	\$78,058,187

Note 20: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

Contributions Receivable

The contribution receivable consisted of one contribution from the owners of Purdue of \$75,000,000 to be paid out over five years beginning in January 2020 and continuing each January for the following four years. The first installment of \$15,000,000 was received in January of 2020, the second installment in January of 2021, and the third installment in January of 2022, leaving a remaining balance of \$30,000,000. The discount rate was 2.2% for 2023 and 2022 based on the risk-free rate of return at the time of the valuation of the contribution receivable.

The contribution receivable at December 31, consisted of:

		2022	
	Less Than	1 - 3

Grant Commitments

In the calendar year 2022, the Foundation awarded two grants totaling \$32,271,240 to the University. A grant of \$16,000,000 was awarded for facility improvements to construct a vivarium for research purposes. A second operational support grant of \$16,271,240 was awarded to the University for the support of administrative, treatment and research activities. The Foundation made payments totaling \$118,811 in the year ended December, 31 2023, and accrued \$80,589 that was subsequently paid early in 2023 related to the \$16,000,000 facility grant. The grants are conditional, and the remaining \$32,071,840 will be included in operating expense as those conditions are met by the University.

Benefit Changes

There were no changes to benefit terms for OTRS for the years ended June 30, 2023, 2022, or 2021.

Changes of Assumptions

Actuarial assumptions used in the June 30, 2020, valuation were changed as follows:

Discount rate was decreased to 7.00 percent

Investment Rate of Return was decreased to 7.00 percent

Inflation was decreased to 2.25 percent

Salary increases were composed of 2.25 percent inflation, plus 0.75 percent productivity increase rate.

Actuarial assumptions used in the June 30, 2017, valuation were changed as follows:

Salary increases were composed of 3.25 percent inflation, including 2.50 percent, plus a service-related component ranging from 0.00 percent to 8.00 percent based on years of service.

Actuarial assumptions used in the June 30, 2016, valuation were changed as follows:

Inflation was increased to 2.50 percent

Investment Rate of Return was decreased to 7.50 percent

There were no changes to assumptions in the valuation report for the years ended June 30, 2015, June 30, 2018, June 30, 2019, June 30, 2021, or June 30, 2022.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Regents for the Oklahoma Agricultural and Mechanical Colleges Oklahoma State University Oklahoma City, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component units of Oklahoma State University, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Oklahoma State University's basic financial statements, and have issued our report thereon dated October 27, 2023. Our report includes a reference to other auditors who audited the financial statements of Oklahoma State University's financial statements. The financial statements of Oklahoma OSU Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with OSU Foundation.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Oklahoma State University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Oklahoma State University's internal control. Accordingly, we do not express an opinion on the effectiveness of Oklahoma State University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether University Athletics Program's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM, REPORT ON INTERNAL CONTROL OVER COMPLIANCE, AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Regents for the Oklahoma Agricultural and Mechanical Colleges Oklahoma State University Oklahoma City, Oklahoma

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Oklahoma State University's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Oklahoma State University's major federal programs for the year ended June 30, 2023. Oklahoma State University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Oklahoma State University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative* Requirements, *Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Oklahoma State University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Oklahoma State University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Oklahoma State University's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Oklahoma State University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Oklahoma State University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Oklahoma State University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of Oklahoma State University's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Oklahoma State University's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2023-001, 2023-002, 2023-003 and 2023-004. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Oklahoma State University's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Oklahoma State University's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance section above, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance. We consider the deficiencies in internal control over compliance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2023-001, 2023-002, 2023-003, and 2023-004 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Oklahoma State University's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Oklahoma State University's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Board of Regents for the Oklahoma Agricultural and Mechanical Colleges Oklahoma State University

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the business-type activities and the discretely presented component unit of Oklahoma State University as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Oklahoma State University's basic financial statements. We have issued our report thereon dated October 27, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

OKLAHOMA STATE UNIVERSITY NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Year Ended June 30, 2023

1. Basis of Presentation

The financial statements include the accounts of all agencies of Oklahoma State University (the "General University") and the accounts of the Oklahoma State University Research Foundation ("OSURF"), collectively referred to as the "University." The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes all Federal awards and other Federal assistance of the University, including Federal awards of the General University and OSURF, for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the University, it is not intended and does not present the financial position, changes in net position or cash flows of the University.

For purposes of the Schedule, Federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the Federal government, Federal appropriations to land grant universities and all subawards to the University by nonfederal organizations pursuant to Federal grants, contracts, and similar agreements. As described in the Uniform Guidance document, the federal awards have been classified into two categories: Type A programs and Type B programs. Type A programs are defined by Uniform Guidance as Federal programs with Federal awards expended during the audit period exceeding 0.3% of total Federal awards expended or \$3,000,000 if total federal awards expended is greater than \$100,000,000 but less than or equal to \$1 billion. Type B programs are all other Federal programs. For the year ended June 30, 2023, the dollar threshold used to distinguish between Type A Federal programs was \$3,000,000.

Type A programs include the following:

A. Research and Development

Includes Federal appropriations to the Agricultural Experiment Station and awards for research and development work under grants and contracts with agencies and divisions of the Federal government.

B. Student Financial Assistance Cluster

Includes certain awards to provide financial assistance to students, primarily under the Federal Pell Grant, Federal Work-Study, and Federal Supplemental Educational Opportunity Grant programs of the Department of Education. The University receives awards to make loans to eligible students under certain Federal student loan programs, and federally guaranteed loans are issued to students at the University by various financial institutions. These loans are considered student financial aid; however, only expenses related to the administration and collection of these loans are included in Federal award expenditures.

C. Other Type A Programs

Includes Department of Agriculture, Department of Education, Department of Health & Human Services and the National Aeronautics and Space Administration.

OKLAHOMA STATE UNIVERSITY NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS – CONTINUED

Year Ended June 30, 2023

1. <u>Basis of Presentation - Continued</u>

Assistance Listing Number (formerly Catalog of Federal Domestic Assistance):

The University has obtained ALN numbers to ensure that all Federal programs have been identified in the Schedule. ALN numbers for applicable programs have been appropriately listed by those programs. Federal Pass-through Funds:

The University passes through certain Funds to subgrantee organizations. Expenditures incurred by the subgrantees and reimbursed by the University are included in the Schedule.

The University is also the subrecipient of Federal funds that are reported as expenditures and included in the Schedule. The Detailed Schedule of Federal Awards denotes funding sources for pass-through funds. Federal awards other than those indicated as pass-through are denoted as Federal direct funds.

2. Summary of Significant Accounting Policies

For purposes of the Schedule, expenditures for Federal award programs are recognized on the accrual basis of accounting.

Such expenditures are recognized following the cost principles contained in either A-21, Cost Principles for Educational Institutions or the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Oklahoma State University has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance. Moreover, expenditures include a portion of costs associated with general University activities, which are allocated to federal awards under negotiated formulas, referred to as Facilities and Administrative Costs (F&A). The University uses an F&A rate that has been negotiated with the Office of Naval Research (ONR) in accordance with 2 CFR Part 200. Restricted grants and contracts and other agreements are recognized when funds are expended in accordance with grant provisions.

3. Federal Student Loan Programs

A. Federal Perkins Loan Program and Health Professional Student Loan Program

The Federal Perkins Loan Program ("Perkins") and the Health Professional Student Loan Program ("HPSL") are administered directly by the University, and balances and transactions relating to these programs are included in the University's general purpose financial statements.

OKLAHOMA STATE UNIVERSITY NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Year Ended June 30, 2023

The balances of loans outstanding at June 30, 2023, and funds advanced by the University to eligible students during the year ended June 30, 2023, under Federal student loan programs are summarized as follows:

ALN	<u>Perkins</u> 84.038	<u>HPSL</u> 93.342
Student Loans Receivable at June 30, 2023 Stillwater Campus Center for Health Sciences	\$ 5,592,337 \$ -	1,214,624 1,985

OKLAHOMA STATE UNIVERSITY NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS - CONTINUED

Year Ended June 30, 2023

3. Federal Student Loan Programs - Continued

B. William D. Ford Federal Direct Loan Program

Under the William D. Ford Federal Direct Loan ("Direct Loan") Program, formerly known as the Federal Direct Student Loan Program, the Department of Education makes loans to enable a student or parent to pay the costs of the student's attendance at a postsecondary school. The Direct Loan Program enables an eligible student or parent to obtain a loan to pay for the student's cost of attendance directly through the University rather than through private lenders. The Stillwater campus began participation in the Direct Loan Program July 1, 1995. As a university qualified to originate loans, the University is responsible for managing the complete loan process, including funds management. The University is not responsible for the collection of these loans.

4. Subrecipients

Of the Federal expenditures presented in the Schedule, the University provided Federal awards to subrecipients as follows:

		OSURF	 General University	 Total

5. Detailed Schedule of Expenditures of Federal Awards

The accompanying detailed schedules of expenditures of Federal awards for the OSU Research Foundation and the General University, at Appendix A and B, respectively, are an integral part of the Schedule of Expenditure of Federal Awards.

OKLAHOMA STATE UNIVERSITY SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2023

Section I – Summary of Auditors' Results						
Finan	cial Statements					
1.	Type of auditors' report issued: Unmod	dified				
2.	Internal control over financial reporting:					
	Material weakness(es) identified?		yes	<u> </u>		
	Significant deficiency(ies) identified?		yes	<u> </u>		
3.	Noncompliance material to financial statements noted?		_yes	<u> x </u> no		
Feder	al Awards					
1.	Internal control over major federal programs:					
	Material weakness(es) identified?		yes	<u> x </u> no		
	Significant deficiency(ies) identified?	X	yes	none reported		
2.	Type of auditors' report issued on compliance for major federal programs:	Unmodified				
3.	Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?	X	_yes	no		
Identification of Major Federal Programs						
	Assistance Listing Number	Name of Federal Program or Cluster				
	84.425F, 84.425M 10.500 Various	COVID-19 Education Stabilization Fund Cooperative Extension Service - OMP 1 Student Financial Assistance Cluster				
	threshold used to distinguish between A and Type B programs:	\$ <u>3,000,000</u>				
Audite	e qualified as low-risk auditee?	X	_yes	no		

OKLAHOMA STATE UNIVERSITY SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) YEAR ENDED JUNE 30, 2023

Section II – Financial Statement Findings

Our audit did not disclose any matters required to be reported in accordance with *Government Auditing Standards*.

OKLAHOMA STATE UNIVERSITY SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) YEAR ENDED JUNE 30, 2023

Section III – Findings and Questioned Costs – Major Federal Programs

<u>2023-001:</u>

Federal agency: Department of Education

Federal program title: Student Financial Assistance Cluster

Assistance Listing Number: 84.007, 84.063, 84.268, 84.033

Federal Award Identification Number and Year: P268K236759 - 2023, P033A223433 - 2023, P007A223442 - 2023, P063P222046 - 2023, P268K232046 - 2023, P033A223442 - 2023

Award Period: July 1, 2022, to June 30, 2023

Type of Finding:

- Compliance, Other Matter
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: 34 CFR 668.165(a) states when an institution credits a student ledger account with Direct Loans the institution must notify the student of the anticipated date and amount of the disbursement, the student's right to cancel all or a portion of that loan, and the procedures and time by which the student or parent must notify the institution that he or she wishes to cancel the loan. Per 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: Oklahoma State University Center for Health Sciences (OSU CHS) and Oklahoma State University Institute of Technology (OSUIT) did not properly have documentation of notification when loans were credited to the student's ledger account.

Context: During our testing of 2 students at OSU CHS, we noted 1 student did not have documentation of notification of loan disbursement for the Fall term.

During our testing of 3 students at OSUIT, we noted the 3 students did not have documentation of notification of loan disbursement for the Spring term.

Questioned costs: None.

Cause: Change in staffing and/or staffing shortage

Effect: Students were not made aware of the anticipated date and amount of loan disbursement for the right to cancel all or a portion of the loan in the required amount of time.

Repeat finding: No

Recommendation: We recommend OSU CHS and OSUIT evaluate its procedures around disbursements of loans and ensure documentation is properly retained.

Views of responsible officials: Management agrees with the finding and has developed a plan to correct the finding.

OKLAHOMA STATE UNIVERSITY SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2023

Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

<u>2023–002:</u>

Federal Agency: US Department of Education

Federal Program Title: Student Financial Assistance Cluster

Assistance Listing Number: 84.007, 84.063, 84.268, 84.033

Federal Award Identification Number and Year: P007A223440 - 2023, P063P223215 - 2023, P268K233215 - 2023, P033A223440 - 2023, P007A223442 - 2023, P063P222046 - 2023, P268K232046 - 2023, P033A223442 - 2023

Award Period: July 1, 2022, to June 30, 2023

Type of Finding:

- Compliance, Other Matter
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: The Code of Federal Regulations (34 CFR 685.309) requires enrollment status changes for students be reported to NSLDS within 30 days or within 60 days if the student with the status change will be reported on a scheduled transmission within 60 days of the change in status. Per 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: Oklahoma State University Oklahoma City (OSU OKC) and Oklahoma State University Institute of Technology (OSUIT) did not properly report student enrollment changes for students who received federal student aid to the National Student Loan Data System (NSLDS).

Context: During our testing of 5 students at OSU OKC, we noted all 5 student's status changes were reported after the 60-day reporting requirement.

During our testing of 3 students at OSUIT we noted all 3 student's status changes were reported after the 60-day reporting requirement.

Questioned costs: None

Cause: The Student Financial Aid Office does not have a process in place to ensure all enrollment changes are reported within 60 days to NSLDS.

Effect: If the NSLDS system is not updated with the student information, over awards could occur should the student transfer to another institution and the student may not properly enter the repayment period.

Repeat finding: No

Recommendation: We recommend OSU OKC and OSUIT review current processes for reporting to NSLDS and implement procedures to ensure submissions are reported timely and accurately.

View of responsible official: Management agrees with the finding and has already implemented a corrective plan.

OKLAHOMA STATE UNIVERSITY SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2023

Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

<u>2023 – 003:</u>

Federal Agency: US Department of Education

Federal Program Title: Student Financial Assistance Cluster

Assistance Listing Number: 84.007, 84.038, 84.063, 84.268, 84.379, 84.033

Federal Award Identification Number and Year: Various

Award Period: July 1, 2022, to June 30, 2023

Type of Finding:

- Compliance, Other Matter
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: The Gramm-Leach Bliley Act (GLBA) requires financial institutions to explain their information-sharing practices to their customers and to safeguard sensitive data (16 CFR 314). The regulation states that the college must designate a qualified individual responsible for overseeing and implementing your information security program and enforcing your information security program.(16 CFR 314.4(a)). The entity shall have a Written Information Security Program (WISP) that outlines the design and implementation of the risk assessment procedures. (16 CFR 314.4(b)). At a minimum, the institution's written information security program must address the implementation of the minimum safeguards identified in 16 CFR 314.4(c)(1) through (8) including: Assess apps developed by the institution. In addition, the written security program provides for the institution to regularly test or otherwise monitor the effectiveness of the safeguards it has implemented (16 CFR 314.4(d)). Per 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: The university was missing all of the requirements from the Gram-Leach-Bliley Act except for having a WISP, implementation of multi-factor authentication, and implementation of policies and procedures to ensure personnel are able to enact information security program.

Context: These new GLBA requirements were applicable beginning on June 9, 2023, and there were multiple elements missing from their Written Information Security Program.

Questioned costs: None

Cause: There was not a formal process in place to review against all the new GLBA requirements to ensure compliance

Effect: The University could fail to address risks related to the University's IT safeguards as stated in the Gramm-Leach-Bliley act.

Repeat finding: No

Recommendation: CLA recommends that the University review the updated GLBA requirements and ensure their WISP includes all required elements.

OKLAHOMA STATE UNIVERSITY SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2023

Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

2023 – 003 (Continued):

View of responsible official: Management agrees with the finding and has already implemented a corrective plan.

<u>2023 – 004:</u>

Federal Agency: US Department of Education Federal Program Title: Education Stabilization Fund

Assistance Listing Number: 84.425F

Federal Award Identification Number and Year: Various

Award Period: July 1, 2022, to June 30, 2023

Type of Finding:

- Compliance, Other Matter
- Significant Deficiency in Internal Control over Compliance

Criteria or specific requirement: Per 2 CFR 180.300, when entering into a covered transaction with another person (an individual, corporation, partnership, association, unit of government, or legal entity), you must verify that the person with whom you intend to do business is not excluded or disqualified. Per 2 CFR 200.303, nonfederal entities receiving federal awards are required to establish and maintain internal controls designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition: The University did not retain proper documentation for suspension and debarment verification.

Context: During our testing, we noted one out of five vendors tested did not have proper documentation for suspension and debarment verification.

Questioned costs: None.

Cause: The University doesn't have proper controls in place to ensure suspension and debarment requirements are monitored and reviewed.

Effect: Failure to assess suspension and debarment could lead to the University working with unqualified vendors.

Repeat finding: No

Recommendation: We recommend the University review procedures to monitor and retain documentation for suspension and debarment verification.

Views of responsible officials: Management agrees with the finding and has developed a plan to correct the finding.
